Tuesday.

Paris, April 6.—French troops under orders from Marshal Foch, moved swiftly into German neutral zone today and occupied five German cities.

Frankfort and Darmstadt were entered at 5 o'clock. Hamburg and Dieburg were occupied at 9 o'clock. The French were under orders to take over Hanau at noon.

Early reports indicated that the various occupations were accomplished without any opposition from the Germans.

The reichswehr (German government troops) who were stationed in the zones about the five German towns were under orders from Berlin to retire at the approach of the French. They did so, according to authentic advices.

When the French entered Frankfort they found only the local police on duty and no soldiers in the streets.

There were some reichswehr battalions at Darmstadt when the French arrived, but they quickly withdrew ten kilometers (between 6 and 7 miles) from the town.

100,000 MEN ARE MOVED FORWARD: BRITISH ACQIESCE

Marshal Foch Fearing Opposition Ordered Quick Action.

FEARS FRONTIER
Massing of German Army
In Rhur Threatens
Land.

London, April 6.—One hundred thousand French troops are being moved forward from the Rhine into German neutral territory by Marshal Foch, according to a report current here today.

It is regarded as significant that the Daily Express, which is close to A. Bonar Law, stated this morning that France would not move her troops from the Rhine without allied approval.

From a reliable source it is learned that the advance ordered by Marshal Foch took the cabinet by surprise and may result in a tense diplomatic situation.

Numerous reports were current. One of them was to the effect that Great Britain has reversed her former opposition to the French advance, having become convinced that Germany had sent more than a mere police force into the Ruhr district. This report was without official confirmation, however.

Later communication was restored and it was learned that the occupation had been carried out quietly by French senealese troops. They are quartered in the railway station, the postoffice and the castle and have occupied all the public buildings.

The mayor issued a proclamation asking the people to abstain from violence and to remain at work. Frankfort, which was occupied at the same time as Darmstadt, was also taken over by the senealese troops. The occupation was carried out without incident. The French forces were quartered in the railroad yards and elsewhere. The French commander, as soon as occupation was complete issued a proclamation asking the populace to remain calm.

Developments indicated that Marshal Foch, foreseeing allied opposition to the French troop movement ordered the French forces to advance immediately.

The occupation of towns in the neutral zone has already led to important diplomatic exchanges, it is understood. According to advices reaching the war office, the German government has sent 75,000 German troops into the Ruhr district.

A. Bonar Law, leader of the government in the British house of commons, held a long conference with M. Cambon, the French ambassador to England.

French anxiety over the situation in Western Germany arises from two causes:

- 1.—Fear for the safety of the eastern frontier of France if the Germans are allowed to mass a big army in Western Germany in violation of the Versailles treaty.
- 2.—The possibility that the coal fields in the Ruhr district of Germany will be tied up or perhaps destroyed, thus making it impossible for France to secure from Germany the coal promised by the peace treaty.

U.S. COMPLETES THREE YEARS WAR WITH GERMANY

Third Anniversary of Declaration Of War Still Holds U. S.

NO PEACE IN SIGHT 17,533 American Soldiers Are Still In France.

Washington, April 6.—America today completed her third year of war.

The United States, on the third anniversary of its declaration of war against the Imperial German empire finds itself still technically at war, struggling for freedom from the snarls of mars despite the fact that hostilities ceased in the western front nearly seventeen months ago.

The treaty of Versailles, rejected by the senate, is in the hands of President Wilson and with slight chance of any further action upon it in the near future. A resolution declaring the war at an end is before the house of representatives but it faces certain veto by the president.

World peace—one of the prime objects of the entrance of the United States into the war—appears to be only an idealistic hope for the future. The military intelligence division of the war department today has information of more than twenty wars which are raging throughout the world.

More than sixty war-time laws are still in force, twenty of which are considered of major importance to the everyday life of the American people.

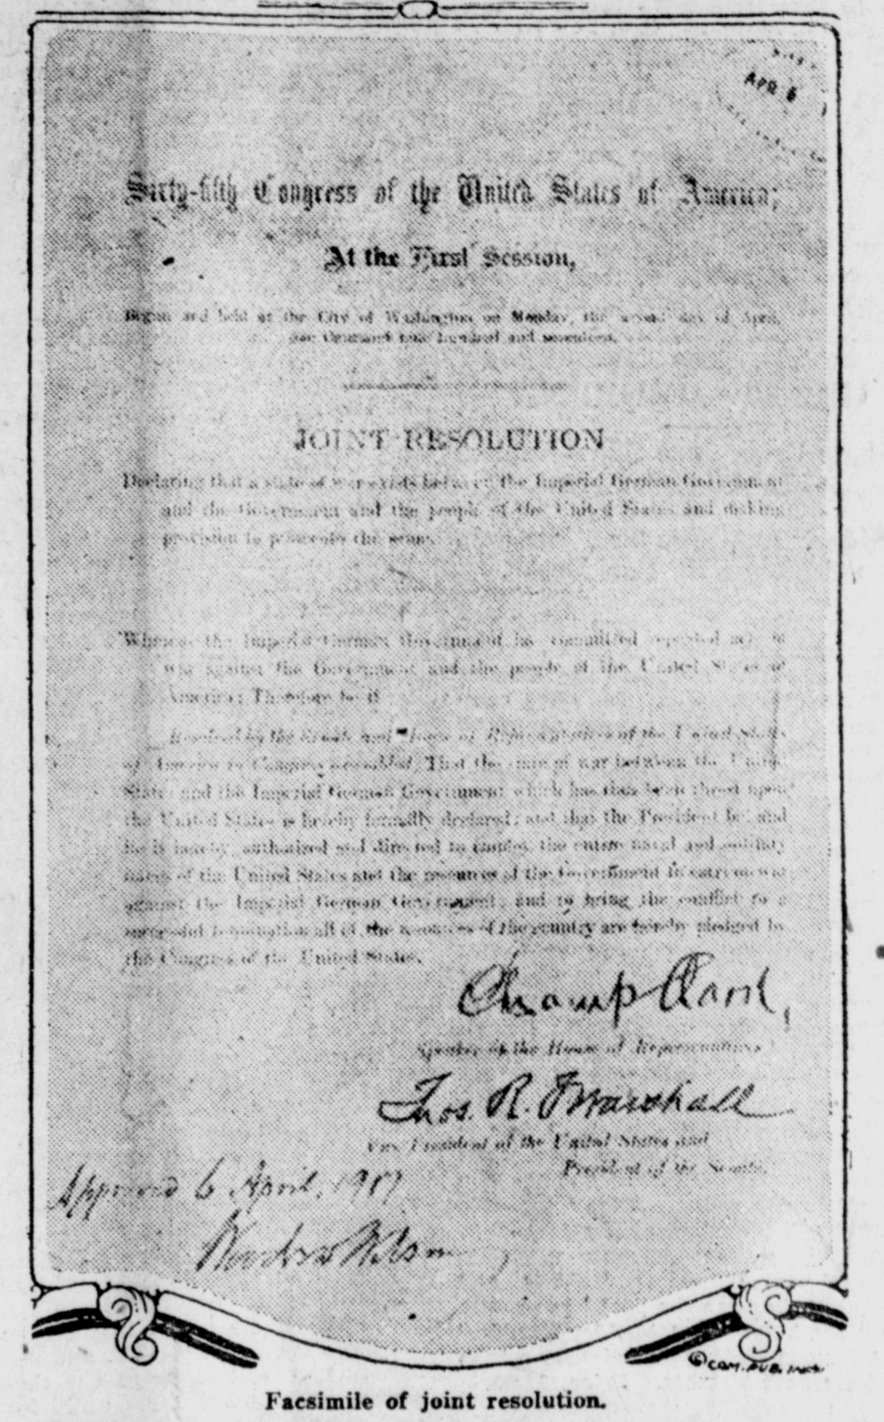

There are 17,533 American soldiers in Europe, more than 17,000 of these patrolling the conquered Rhine territory. Twenty two vessels of the United States navy, with a personnel of more than 3,000 men are still permanently assigned to duty in European waters.

The gross national debt today is \$24,698,671,000 and on April 6, 1917, it was \$1,281,968,000. The total cost of the war is estimated by the treasury department as \$32,830,000,000.

Annual taxes to the extent of \$4,000,000,000 are being paid by the American people to wipe out the war debt. There is little hope of the downward revision of taxes during the present year. Secretary of the Treasury Houston today expressed opinion that war taxation must continue for nearly twenty years longer.

The United States is entering upon a military and naval program greater than ever before in its history. The army reorganization bill before the senate today calls for a standing army of more than twice as great as that of April, 1917. Secretary of the Navy Daniels has urged congress for a great expansion in the navy.

U. S. GOVERNMENT DECLARED WAR ON GERMANY THREE YEARS AGO TODAY

Three years ago today America cast its lot with the allies in the world war against Germany and her pawns. The joint resolution, declaring war, was passed by the house of representatives and the senate April 6, 1917. A facsimile of the resolution is shown above, bearing the signatures of Champ Clark, speaker of the house; the signature of Vice President Marshall, president of the senate, and that of President Wilson.

COLBY SILENT ON POSITION OF U. S. IN PRESENT INTERNATIONAL CRISIS

Washington, April 6.—The United States has not made any formal protest against the French occupation of cities in the neutral zone of Germany. It was officially announced today.

This statement followed Secretary Colby's refusal to comment on reports that a protest had gone forward. Secretary Colby did not meet the newspapermen in the usual morning conference.

Secretary Colby has had a long conference with Ambassador Jusserand of France and it is possible that an informal statement of the attitude of the United States has been made.

The case of The State on the relation of George W. Sheets, against Chas. S. Johnson has been especially assigned for hearing by the Court of Appeals in Springfield, May 11.

When the case was called in the Court of Appeals Monday, counsel for Mr. Sheets said that they had not had an opportunity to examine the answer of Mr. Johnson and wanted their legal time which was 30 days, in which to file any pleadings they wished. This was granted.

Prosecutor Harry D. Smith asked today that the case be especially assigned for hearing as is permitted by law in a matter in which a public office or official is concerned, and upon agreement of counsel, it was set for hearing May 11, when the Appellate Court will be in session in Springfield.

POLITICAL TWIST IS GIVEN TO BANQUET OF CHURCH MOVEMENT

On board Rockefeller Special, Pittsburgh, Pa., April 6.—Members of the Rockefeller party are worried about the political twist which was given to the banquet of the Inter-Church World Movement at Washington last night. The ovation to Lansing and the remarks of Dr. John R. Mott, which was taken by the Washington audience as a criticism of President Wilson, disturbed the members of the party. Dr. Mott left the Rockefeller tour at Washington at midnight and returned to New York City. The others came on to Pittsburgh for a day of mass meetings.

"I'm sure that no one at the banquet intended to make a political affair out of it," said one of the church leaders on the train. "Washington puts political interpretation on everything it hears and we can't help what the audience read into Dr. Mott's statements."

Mott's approval of Lansing, during his one hour address, was studied and deliberated. Lansing, who is chairman of the executive committee of the Inter-Church World Movement, was obviously affected. Mott after describing Lansing as possessing one of the finest international minds in the world and being one of the finest Christians in America, said, "he is a man in whom we still put our trust." The applause lasted for three minutes.

LOCAL AUXILIARY IS GRANTED ITS CHARTER

The Woman's Auxiliary of Joseph P. Foody Post of the American Legion, has the honor of owning the second charter granted in Ohio to an auxiliary of the American Legion. It is thought that the first auxiliary to be granted a charter is in Toledo.

A meeting of the auxiliary to the local post, for the purpose of forming an organization, will be held Thursday evening at the Chamber of Commerce. Wives, mothers, daughters, and sisters of members of Foody Post are eligible to membership, and they are urged to attend, so that they may become charter members, and take part in the organization.

ALLIED SUPPORT TO FRENCH IS NOW CONSIDERED

Paris, April 6.—The question of extending allied support to the French occupation of German towns on the outskirts of the Ruhr district was discussed at a meeting of the supreme council of the peace conference today. Hugh Wallace, the American ambassador, represented the United States at the meeting. Just before the session opened news was received that French had already entered Frankfort.

Detroit, April 6.—Hiram Johnson has won the Republican presidential nomination in Michigan by the greatest vote ever piled up by a candidate in any primary election in the state.

With 1,165 precincts out of 2,421 in the state already counted, the Californian is leading by 44,303 votes over Leonard Wood, his closest opponent.

Johnson swept the city of Detroit clean. Here he beat Wood by more than four votes to one. His majority over Wood in the 319 precincts of the city proper was 52,861. This gave him a lead that Wood is not expected to approach by 30,000 in other parts of the state. Wood's lead in the 846 precincts outside of Detroit was less than 10,000 votes.

Governor Lowden was trailing 30,000 votes behind Wood when half of the state had been counted. Hoover was bringing up the rear.

The vote in 1,165 precincts, including Detroit complete, was as follows: Johnson 105,786; Wood 59,483; Lowden 33,298; Hoover 29,782.

In a veritable blizzard of ballots, Detroit hurled Johnson so far out in the lead that it was evident early in the count that Wood could not hope to overtake him. The complete vote in Detroit's 319 precincts follow:

Johnson 69,004; Wood 16,143; Hoover 12,558; Lowden 11,009; Pershing 2,779.

In 846 precincts outside of Detroit the vote was:

Wood 43,340; Johnson 34,782; Lowden 22,289; Hoover 17,224.

This includes a large slice of the upper peninsula which was Wood's one redoubtable stronghold. In other parts of the state Johnson was running neck and neck with his chief opponent.

Congressman Louis Cramton, Johnson's state manager, announced today that Johnson's majority over Wood in the whole state would be close to 30,000 votes.

Governor Edwards of New Jersey led Hoover by such a wide margin in the city of Detroit that there is a possibility that he may have won the whole state. The latest figures on the Democratic race follow:

Edwards 7,142; Hoover 4,977.

McAdoo, Palmer and Bryan are trailing far behind in that order. Early returns indicated today that Bryan was running second but he soon lost his lead.

WAR ON LOAFERS IN COLUMBUS IS BEGUN BY POLICE

Columbus, O., April 6.—Loafers in Columbus must get jobs.

Officers have been instructed to arrest suspicious persons and vagrants at all times. Promise of co-operation in cleaning up the city was given Police Chief French by Municipal Judge Osborn.

Overhearing Herman Smith, 490 West Poplar avenue and Charles Henry, negro, 107 Maple street refuse jobs paying 45 cents an hour at the state free employment bureau yesterday, Patrolman Swisher nabbed them. On vagrancy charges the judge gave each 30 days in the workhouse and fines of \$52.75, to be worked out at 60 cents a day after the 30-day terms expire.

Police ask that offense not be taken if you are stopped in early morning hours and questioned. Officers have been told that persons on streets at unreasonable times must give account of themselves.

DANIELS ADVOCATES NAVY SECOND TO NONE IN ADDRESSING SENATE

Washington, April 6.—Advocating a navy second to none in the world provided to make such a force possible, Secretary of the Navy Daniels appeared today before the naval affairs committee considering the annual navy appropriation bill in executive session.

The program submitted by the secretary includes the completion of the three year program authorized in 1916 and partially postponed because of the war; the construction of additional ships to make the United States naval fleet balance in every respect and authorization of additional vessels of grades "to make the navy of the United States second to none."

One point emphasized by the secretary was the need of additional provision for the navy on the Pacific. He said that for the first time in its history, the United States is maintaining a fleet on the Pacific and is not prepared to care for those ships in "home" ports. The navy yard facilities of the coast are "inadequate."

GERMAN TROOPS ADVANCE TOWARD RUHR DISTRICT

in District.

London, April 6.—In battle formation and supported by advance guards of airplanes the German government troops are moving into the Ruhr district clearing towns of the red forces, according to a dispatch from Berlin today.

Heavy fighting developed at some points where the reds offered armed resistance.

According to an official statement given out at Berlin 300 men were killed in fighting around Wickede, in Westphalia. The reds made a strong attack against the station at this place.

The airman assisted the government troops in their attacks in Westphalia.

German regulars are advancing north of Battrup and east of Dortmund and have already cleared Camen and Lunen, two important railway towns, of armed workmen, said another official statement issued at Berlin.

The Central News correspondent at Copenhagen reports that the German reds are retreating along the Ruhr canal to strongly fortified positions. The reds were said to be offering resistance to the government forces and that panic prevailed at some places.

The French military authorities in the new zone of occupation have forbidden traffic on the streets between 9 p. m. and 5 a. m. Transport with the rest of Germany has been cut off except for the movement of food. Censorship has been established and the newspapers have been suspended.

POLICE DOUBLE EFFORTS WHILE STRIKE BREAKS

Thousand Switchmen Imported To Clear Trouble.

Chicago, April 6.—Police vigilance was redoubled in Chicago railroad yards today as more than 1,000 switchmen from out of town points began arriving to break the outlaws switchman's strike which has crippled the service of railroads running into Chicago, paralyzed normal activities at the stock yards, and brought about the freight embargo.

As fast as the out of town switchmen arrived they were placed in the jobs of the strikers. All are members of the Brotherhood of Railroad Trainmen, which is co-operating with the railroad officials to break the strike. The railroad heads believe that by Saturday traffic will be almost back to normal.

The police fear, however, that the arrival of the outsiders will anger the strikers to the point of violence, and consequently every available man from the force has been detailed to patrol the railroad yards. The chief of police is prepared to ask for aid from the state militia, if necessary.

The prospect that 50,000 men may be thrown out of work because of the situation at the stock yards continues.

The French moved forward a whole army corps, according to the following dispatch from Mayence received early in the day:

"A certain French army corps began its advance from the old military lines early Tuesday morning to occupy Frankfort."

Heavy fighting developed at some points where the reds offered armed resistance.

According to an official statement given out at Berlin 300 men were killed in fighting around Wickede, in Westphalia. The reds made a strong attack against the station at this place.

The armen assisted the government troops in their attacks in Westphalia.

German regulars are advancing north of Battrup and east of Dortmund and have already cleared Camen and Lunen, two important railway towns, of armed workmen, said another official statement issued at Berlin.

The Central News correspondent at Copenhagen reports that the German reds are retreating along the Ruhr canal to strongly fortified positions. The reds were said to be offering resistance to the government forces and that panic prevailed at some places.

The French military authorities in the new zone of occupation have forbidden traffic on the streets between 9 p. m. and 5 a. m. Transport with the rest of Germany has been cut off except for the movement of food. Censorship has been established and the newspapers have been suspended.

POLICE DOUBLE EFFORTS WHILE STRIKE BREAKS

Thousand Switchmen Imported To Clear Trouble.

Chicago, April 6.—Police vigilance was redoubled in Chicago railroad yards today as more than 1,000 switchmen from out of town points began arriving to break the outlaws switchman's strike which has crippled the service of railroads running into Chicago, paralyzed normal activities at the stock yards, and brought about the freight embargo.

As fast as the out of town switchmen arrived they were placed in the jobs of the strikers. All are members of the Brotherhood of Railroad Trainmen, which is co-operating with the railroad officials to break the strike. The railroad heads believe that by Saturday traffic will be almost back to normal.

The police fear, however, that the arrival of the outsiders will anger the strikers to the point of violence, and consequently every available man from the force has been detailed to patrol the railroad yards. The chief of police is prepared to ask for aid from the state militia, if necessary.

The prospect that 50,000 men may be thrown out of work because of the situation at the stock yards continues.

CITIZENS SCORE SOUTHERN POLICE FOR ACTIVITIES

Steuersville, April 6.—A petition expressing utter contempt for the manner in which county authorities have acted in the matter of the murder of little 11-year-old Frances South of Adena, Ohio, signed by 75 citizens of Mt. Pleasant and Smithfield Townships, is to be forwarded to Governor Cox, it was announced here today by circulators of the petition.

Game Warden John Crawford, who arrested Mike Anankuk of Ramsey, now held on charge of murder, himself was arrested Saturday at Adena, on a charge of assault and battery, preferred by Harry Salchuk of Adena, who alleges Crawford assaulted him on a train near Adena after Crawford had questioned him in connection with the murder. Crawford was bound over to the grand jury.

Citizens here are demanding a right investigation by the county grand jury of the murder and subsequent proceedings, including the arrest of Onankuk, it is said.

Fire wiped out the business section of Waynesville early this morning, burning out one block. The Charles Reed grocery and his residence, where the fire started, were burned out, the residence of Miss Addison Keyes next burned, and next the residence and barber shop of Malcom Ridge. Fritz's grocery was destroyed and the Waynesville Gazette, over it, was a total loss. The saddlery shop of Isaac Keyes was destroyed but the contents were saved.

GREAT MEDICINE
Made From Corn Silk—Excites Favorable Comment.
Kidney and Bladder Ailments Banished By Few Doses.

Corn Silk! The same "silk" you see protruding from the husk of corn, produces a fine medicine for kidney and bladder irregularities, when compounded with other simple drugs as in Balmwort Tablets.

Balmwort Tablets contain a powerful extract of corn silk, which quickly relieves the inflammation and congestion that causes such distress as pains in back and hip, rheumatic twinges, nervousness, severe headaches, accompanied by frequent desire to eliminate, followed by scalding, burning sensation. The patient is compelled to arise frequently to relieve painful pressure, even though a scanty flow follows. The eyes appear "bloodshot," the sleep is restless, and sometimes fever, followed by chills, causes great unrest. It is unwise to neglect such symptoms, when a few doses of Balmwort Tablets can be taken for relief. Alice Trobough, 5627 South Twenty-fourth street, Omaha, Neb., writes: "I have used one tube of your Balmwort Tablets and find that they are the best I have ever used for kidney and bladder trouble." Ask your leading druggist for a tube of Balmwort Tablets. Price, \$1.00.

Want Pink Cheeks—Red Lips?

Some unfortunate men and women are prone to wonder why some of their friends are blessed with an abundance of color—pink cheeks and red lips—while theirs are always colorless. The reason for this last named condition is—there is not enough red blood corpuscles in blood—under a microscope the blood is thin and watery. The flesh is flabby too. Well known physicians assert that the regular administration for several months of three-grain hypo-nucleic tablets will greatly improve the color, add to the weight, make the cheeks pink and the lips red and in general be very beneficial. For self-administration, obtain from any of the best apothecary shops.

AN EXCEPTION TO OLD ADAGE WAS BLESSING

Woman Decided to Take Other Peoples Advice and Is Greatly Benefited By Trutona.

Springfield, O., April 5th, 1920—Mrs. Albert J. Hunter, wife of A. J. Hunter who is connected with the Western Mutual Life Insurance Company here, and resides at 319 Cedar street, decided to try Trutona because so many other people spoke so highly of the new medicine. The remarkable benefits she gained from its use are explained in her interesting statement which is as follows:

"My general system became run down by continued suffering from stomach and nervous troubles. My appetite was very poor and what little food I would eat didn't seem to digest as it should, which caused me to bloat and belch for about an hour after meals. I'd often feel tired and worn out during the day, as restless nights were not unusual things for me. I'm not positive but it seemed that I was losing in both weight and strength.

"I had heard Trutona spoken of so often to try it, and I can truthfully say that I am very glad that I made that decision. I feel so much better now. I can eat hearty meals these days and they are properly digested, too. I'm not so nervous now and I feel as though I'm gaining both my weight and strength back again. I think Trutona is a splendid medicine and I'm glad to recommend it."

Trutona is now being introduced and explained in Xenia at Sayre and Hemphill's drug store.

CHANCES OF STRIKING OIL

The big producers are being found by drillers in the southwestern fields of the United States, but there is more certainty of "striking oil" in Pennsylvania, where the product commands the highest price and the wells last long. The country over, the driller's chances are approximately four to one in favor of getting oil; in Pennsylvania he has approximately nine chances of success to one of a failure. This was learned from the Oil City Derrick's report of drilling operations during 1919.

In the United States as a whole 28,462 wells were completed, of which 5,951 were dry, or non-productive; in Pennsylvania the completion, totalled 5,178, of which only 573 brought total disappointment to the owners. The chief reason for the discrepancy is apparent in the newer fields there is genuine wild-catting; the oil bearing areas of Pennsylvania are well defined and the country over, the driller's chances are approximately four to one in favor of getting oil; in Pennsylvania he has approximately nine chances of success to one of a failure. This was learned from the Oil City Derrick's report of drilling operations during 1919.

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS
A MODERN STORY OF HOME AND BUSINESS

INDECISION Chapter 95

I did think over what Mary had said I tried to look at it from every angle. And I tried to put my personal feelings out of the question—my feelings as regarded earning money, my independence, and my love of good clothes. The hardest of all to battle was the loss of independence. It isn't easy for a girl who has always had her own pay envelope to give up—even for love.

I had earned my living so long before I married Robert, I had been accustomed to my own money, to do with it as I pleased how could I endure to ask him for what I needed?

Each time this thought came, I felt sure I could not give up my position, that I absolutely could not be dependent upon anyone, even Robert, recall all the stories I had heard or read of women who had to ask their husbands for every cent they spent; and how it was given grudgingly often, or an accounting required.

"That would be awful!" I said to myself. "Think of saying to Robert, I want a dollar for this or that. It would be unbearable."

I did not think that Robert would ask me what I had done with money. He might give me, but we would have so little I wouldn't feel I could take it without telling him what I needed it for.

If anyone thinks I had an easy problem, I wish I might put them in the

"Bully for you, Gerry! A wife who helps her husband make good is worth same position. I had earned more than Robert, so had no hesitancy in indulging myself occasionally in little extravagances that would be out of the question if I stopped working. Not that I bought useless things, but nice powders and perfumes, a bit of real lace for a collar, silk stockings and so forth. Then I was fond of the theater and had always paid for the tickets without saying anything to Robert. I would also have to give up all these things. I had now but a week to decide.

As may be imagined in my undecided mood, the days seemed fairly to fly past. Each night I would say to myself, "I must decide tomorrow—I will and each night I would still be uncertain."

Mary and Gardner came up after dinner and spent one evening, but Mary did not refer to our talk in any way even when we were alone. I thought it strange, yet was glad she didn't. It was my problem now. She had told me all she knew, however, she was thinking of it. I caught her several times, then glancing quickly away when she thought I had noticed.

"What's all this Mary tells me, Robert, about your bringing Burch and company up to date?" Gardner asked.

"Oh they were so old fogie they couldn't do business. I just made a suggestion or two. Really Gerry has done all that has been done."

having." I knew by Gardner's tone that Mary had told him something of my work with Robert, and that he realized we would both be more comfortable if he pretended ignorance.

"Of course I am worth having, Gardner enyon! I am surprised that you ever had any doubts on the subject."

"That's right, Gerry, give it to him. Used to be a bit jealous of you, Gardner. Gerry sang your praises too loudly to suit me. But I'll forgive you, seeing you are going to marry Mary." Robert said in a joking tone, but making me flush a little. It never had entered my head that he was or would be, jealous of Gardner. But I remembered I used to praise him, call him "clever" and so forth.

"You people will be quarrelling if I don't take Gardner away," said Mary. "But remember I am a poor wretched girl, and need my sleep."

Just before she said goodnight Mary whispered: "Madame said today you would be back next week."

"Did she?"

"Yes. Are you coming back, Gerry her tone was queer."

All the girls will be glad to see you."

"I'm not thinking of the girls, Mary. I am thinking of Robert—and myself."

"Then you haven't decided?"

"No."

"Come along Mary! I thought you were in a hurry," Gardner took her arm and hurried her away.

Local Elks Lodge Installs Officers Monday Evening

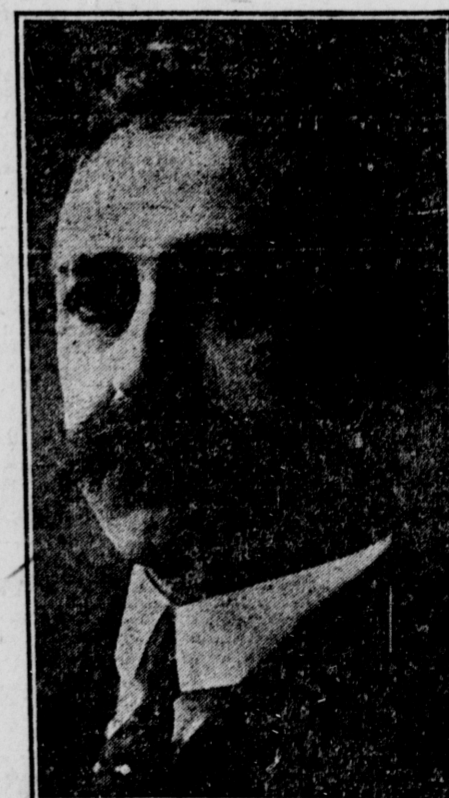

TWENTY NINE men signed their names to the charter of the Xenia Lodge, No. 668, Benevolent Protective Order of Elks, which was granted in this city January 31, 1901.

Today, the Lodge housed in its handsome, newly remodeled home, boasts 250 members and is about to conduct an active drive for fifty more members within a very short time. Jacob Kany, one of the most active members in the organization since its start, has been recently elected Exalted Ruler of the order, and the campaign will be conducted under his regime.

It was under the leadership of Hugo N. Schiesinger, attorney, and now Prosecuting Attorney of Franklin County, that the Lodge began its career in this city. Mr. Schiesinger was elected the first Exalted Ruler and with the twenty-nine members, who composed the initial organization began the campaign to put the order on a sound footing in this city. How well the initial efforts succeeded is shown by the prominence of the Xenia Lodge at this time.

The Lodge located first in rooms above the present rooms occupied by the Famous Cheap Store on East Main street. As the order grew in membership, however, larger quarters were demanded and the Lodge moved to the rooms now occupied by the Chamber of Commerce in what is now the Poust building on East Main street. Here the lodge enjoyed comfortable quarters for a number of years.

Strengthened in membership, the Lodge was able to buy the handsome Carroll home at East Second and Whiteman streets several years ago. Steps were immediately inaugurated to increase the capacity of the building, and a \$10,000 building campaign was launched, and under supervision of a building committee, consisting of George R. Kelly, Jacob

Kany, W. B. Hill, William Ambuhl, James Scott and L. D. Wilson, a large addition was erected in the rear, providing quarters for a new and handsome lodge room, which is also used as a dance hall and social room, and a handsome dining room and kitchen, in which regular meals are now served daily. The lodge room is now used as a card room.

Since the building of the addition, about \$5,000 has been spent by the lodge in remodeling work in the interior, that has greatly improved the building. Comfortable parlors, pool and billiard rooms and baths are now provided in the structure. The Lodge boasts now of being one of the most attractively quartered in this section.

With the annual election of officers held recently, Jacob Kany, well-known merchant tailor, who has been long and actively connected with the enterprises of the Elks, was elected to the position of Exalted ruler. He succeeded W. B. Hill, president of the W. B. Hill Electrical Company, who held the office for four consecutive terms of one year each. S. G. Phillips, of the firm of Higgins & Phillips, was elected Esteemed Leading Knight, formerly holding the position of Esteemed Loyal Knight. His picture was not available. L. S. John, of the Criterion, was elected Esteemed Loyal Knight, succeeding Mr. Phillips, and W. J. Smith, of the grocery firm of G. J. Smith and son was elected Esteemed Lecturing Knight succeeding Mr. John.

Paul Owens, circulation manager of the Gazette and Republican, was elected to the position of Secretary of the Lodge, while the three trustees are Oscar Werber, president of the Xenia Fertilizer Company; G. A. Willett, president of the Greene County Hardware Company, and John P. Bocklet, president of the Bocklet-King Company. J. B. Bice, general manager of the Xenia Garage Company, was elected to the position of member of the House Committee. L. D. Wilson, chairman of the House Committee is not shown in the pictures.

LITTLE FOLKS

HAVE "BUNNY PARTY."

Dressed as "bunnies," Robert Adair and his brother Charles Wallace, were jolly little hosts to the forty boys and girls who were Robert's guests at a "bunny party," at their home on North Galloway street, Saturday afternoon.

Mrs. C. W. Adair, mother of the little hosts helped her sons entertain their little guests, and everything was kept jolly for the little folks all afternoon. A "bunny" hunt was a feature, and in their bunny costumes the hosts led the procession of little folks through the house. Each child was rewarded with a bunny basket and eggs.

Ice cream and cake was served to the little folks. The dining room table was attractive with a centerpiece of Easter blossoms, and with bunnies and Easter eggs played over it.

EASTER LILIES DECK CHURCH FOR WEDDING

Easter lilies and carnations decorated the altar of St. Paul's church, Yellow Springs, for the marriage

ceremony of Miss Jane Christine DeVine, daughter of Mr. and Mrs. Dennis DeVine, to Lawrence Paul Denney, of Springfield, which was celebrated at 8 o'clock Tuesday morning, the Rev. George Depebrock officiating.

A large company of relatives and friends of the bridal pair witnessed the nuptials.

With Miss Mary Murray at the organ, the wedding march from Lohengrin was played for the processional of the bridal party, from the church door to the altar where the service took place. The bride wore a robe of white georgette over satin, with a tulle veil and wreath of orange blossoms, and she carried a bouquet of white roses. Her maid was her sister, Miss Bess DeVine, who wore an accordion pleated skirt of white crepe de chine, with a pale green overblouse, and a white picture hat. She also carried white roses. The bridegroom's brother, John Denney of Springfield, was best man.

The choir sang Schubert's Mass, and at the offertory Miss Helen Oster sang Horen's "Ave Maria."

Following the church ceremony, breakfast was served to the bridal party and immediate relatives of the bridal pair at the DeVine home.

Mr. and Mrs. Denney started during the afternoon, on a wedding trip, and they will live in Springfield, where Mr. Denney, who is a railroad man, has his headquarters. Mrs. Denney has been in the millinery business in Yellow Springs for some time with Mrs. Frank Blazer. She recently sold her interest in the business to Mrs. Blazer.

MINISTER ILL IN BED PERFORMS MARRIAGE

While the officiating clergyman, the Rev. D. D. Dodds, pastor of the First United Presbyterian church, who is ill, sat propped up with pillows in bed at his home on South Detroit street, the marriage ceremony of Miss Lois Dorothy Gartrell to Carl Ensley Smith of Spring Valley, was performed Saturday evening.

Fifteen relatives of the bridal pair gathered in the minister's bedroom while the service was read.

Dr. Dodds has been ill for a week, but the bridal pair wished to have him perform the ceremony if he were able, and his physician permitted him to be propped up in bed while he officiated at the nuptial service.

The attendants were Miss Pauline Smith, cousin of the bride, and Ralph G. Feyer. The bride wore a becoming tailored suit in navy blue, with a hat in the same shade and carried a cluster of red roses.

The relatives who witnessed the service were, Mrs. Mattie Smith, the bridegroom's mother, Mr. and Mrs. Thomas M. Gartrell, parents of the bride, Mrs. Arch Cospey, Mr. and Mrs. Oren Gartrell, Mrs. Anna Oglesbee, Miss Evelyn Lehr, Mrs. E. D. Smith, Mrs. Allen McCain.

Following the ceremony, Mr. and Mrs. Smith started on a honeymoon trip. They will live in Spring Valley, where Mr. Smith, is in the real-estate business.

Both young people have many Xenia friends. Mrs. Smith is well known as a singer, and her beautiful voice has been heard in church choirs in this city. Mr. Smith was formerly principal of the Spring Valley high school. He is a world war veteran.

CHARGE AGAINST DR. WITHDRAWN; THREE NEW CASES SMALLPOX FOUND

Three additional cases of smallpox have been reported to Dr. R. H. Grube, city health officer.

Of the new cases, one is a child in the family of O. C. Custer, clerk in the Xenia post office, North King street, another a little girl named Saults, on Hivling street, and another, a Smith child on North West street. The four children ill of the malady are all pupils in the second grade at Central school. Two other cases are at Central high school.

Dr. Grube, who yesterday made an affidavit before Police Judge E. D. Smith charging Dr. H. K. Hawkins with failure to report a contagious disease, in the case of the child of George Dean, later withdrew the charge after receiving the physician's explanation. Dr. Hawkins said that it was his intention at all times to support the health department, and that he had made an unsuccessful effort to get Dr. Grube over the telephone to report the case of suspected chickenpox in the Dean child, whom he saw only once, a short time before the case was investigated by Dr. Grube.

Dr. Hawkins made the following explanation of the matter Tuesday: "Relative to the smallpox cases found Monday, I wish to say that I was called to see a little boy at the residence of Mr. George Dean, last Saturday, and on examination, I found the little fellow with some fever and a few undeveloped eruptions. I told the mother to keep him in bed, as I felt that he might develop chickenpox, but would call the next day. When I reached my office I phoned Dr. Grube three different times, but failed to locate him.

"The next morning I was informed by phone that Dr. Grube had seen the case and diagnosed smallpox. Again I phoned him and failed to get him. Please bear in mind that I only saw the case once, and a few hours later, not days, Dr. Grube was called.

"I was treating only one case and I do not know the attending physicians as their names were not mentioned on the other cases.

"While Dr. Grube is perfectly right as I said to him in stamping out contagious diseases, yet I don't wish it understood that I was not doing my professional duty, my desire has always been for the protection of humanity from that dreaded malady.

"It is my purpose that the public know my movements in this and like cases coming under my observation.

"Respectfully,"

"H. R. HAWKINS, M. D."

BASKET BALL STAR LOSES LEG FOLLOWING ACCIDENT RECENTLY

Vernon Schwab, star forward of the victorious Stivers High School basketball team of Dayton, had his right leg taken off six inches below the knee at Miami Valley hospital Monday.

Young Schwab, in company with his brother George, went to Germantown on March 27, where they engaged in target practice, when he was accidentally shot by his brother. He was brought to Dayton, where physicians probed for the lead, but were unable to find it and infection set in making amputation necessary.

The loss of Schwab will be a big one to Stivers, as the lad was one of the shining lights of the team. He took a big part in helping Stivers win the state interscholastic championship at the Delaware tournament, and also in the Chicago tournament, where Stivers finished third.

FARMER KILLED WHEN HE ATTEMPTS TO STOP RUNAWAY TEAM

Attempting to stop a team of runaway horses at his home six miles west of Washington C. H., William McLain, 61, farmer, was run over a wagon wheel crushed his skull, causing almost instantaneous death. McLain was in the barn when he heard the animals dashing past and he stepped in front of them in an effort to stop them. They bore him down under the wheels, the heavy wagon passing over his head. He never regained consciousness. A son Ernest, almost lost his life in the same manner five years ago when a wheel of a runaway wagon struck his head leaving scars that are still visible, when he attempted to stop a team. A daughter, Dora, was also badly injured in a runaway accident some time ago.

VICTIMS OF AUTO ACCIDENT NOT SERIOUSLY HURT

S. Newton Bennington and John Rachford injured when the Ford taxi in which they were riding collided with the machine driven by Dr. C. G. McPherson at Main and Monroe streets yesterday, were sufficiently recovered from their injuries to be out today.

Participants in the accident seem to place it as unavoidable. Both cars were being driven at a moderate rate of speed, the taxi traveling east on Main on the south side of the street in its proper position, and it is said had the right of way. Dr. McPherson attempted to avoid the collision by turning his car also east on Main, but the attempt was belated and the Ford was turned over on its side by the force of the impact.

Three Million Dollars

This illustration is a picture writing. Can you read it? It says: Thomas A. Edison combined his genius with three million dollars and produced the Official Laboratory Model of the New Edison—"the phonograph with a soul."

Always remember this picture-message. Remember the man at the top—the man whose genius is responsible for it all—Edison the wizard, Edison the idealist. Remember the three million dollars spent, the seven years he experimented—the untiring research which spared neither men, materials nor money. Then you will always understand why the Official Laboratory Model of the New Edison is the ultimate development of the phonograph—why its RE-CREATION of an artist's art and that artist's living art are without difference. Replicas of the original three million dollar model are in our store. You cannot estimate them in terms of other phonographs—in anything except price. They actually cost no more. We'll put one in your home at once—and let you pay for it at your convenience.

FRENCH TROOPS BEGIN ADVANCE INTO GERMAN NEUTRAL TERRITORY

FIVE IMPORTANT GERMAN CITIES ARE OCCUPIED

Frankfort and Darmstadt
Are Under French
Supervision.

FIGHTING REPORTED

Essen Center of Red
Activities Early
Tuesday.

Paris, April 6.—French troops
under orders from Marshal Foch,
moved swiftly into German neu-
tral zone today and occupied five
German cities.

Frankfort and Darmstadt were
entered at 5 o'clock. Hamburg
and Dieburg were occupied at 9
o'clock. The French were under
orders to take over Hanau at noon.
Early reports indicated that the
various occupations were ac-
complished without any opposition
from the Germans.

The reichswehr (German gov-
ernment troops) who were sta-
tioned in the zones about the five
German towns were under orders
from Berlin to retire at the ap-
proach of the French. They did
so, according to authentic ad-
vices.

When the French entered
Frankfort they found only the lo-
cal police on duty and no soldiers
in the streets.

There were some reichswehr bat-
talions at Darmstadt when the
French arrived, but they quickly
withdrew ten kilometers (be-
tween 6 and 7 miles) from the
town.

London, April 6.—Frankfort and
Darmstadt, two important German
cities on the outskirts of the Ruhr
district, were occupied by French
troops without any opposition at 5
o'clock this morning, according to a
news agency dispatch from Mayence,
headquarters of the French army of
occupation in Germany.

General Degoutte, commander of
the French troops on the Rhine has
proclaimed a state of siege at Frank-
fort and Darmstadt, the dispatch
added.

General Degoutte, who directed the
operation of the French occupational
forces at Frankfort and Darmstadt,
issued a proclamation saying that he
had been ordered by Marshal Foch
to occupy Hamburg and Hanau as
well as Frankfort and Darmstadt.

The French military authorities
promised that the new occupation
would cease when the German troops
evacuated the neutral zone created
by the peace treaty.

The French moved forward a whole
army corps, according to the fol-
lowing dispatch from Mayence re-
ceived early in the day:

"A certain French army corps be-
gan its advance from the old mili-
tary lines early Tuesday morning to
occupy Frankfort."

Heavy fighting has broken out at
Essen, the seat of the great Krupp
works, according to advices to the
Daily News. These dispatches said
that fighting was in progress all
around the city and that work in the
industrial plants had been suspen-
ded. During looting on Sunday in
the environs of Essen German red
soldiers shot a number of pillagers
on the spot to prevent the excuse of
terrorism when German government
troops occupied the city the Daily
News dispatch added.

The Daily Mail correspondent at
Dusseldorf reported that German
government troops were moved upon
Essen Monday and that all the red
leaders were fleeing from the terri-
tory occupied by the reichswehr
(government forces.)

U.S. COMPLETES THREE YEARS WAR WITH GERMANY

Third Anniversary of Decla-
ration of War Still
Holds U. S.

NO PEACE IN SIGHT

17,533 American Sol-
diers Are Still In
France.

Washington, April 6.—America
today completed her third year of
war.

The United States, on the third
anniversary of its declaration of
war against the Imperial German
empire finds itself still technically
at war, struggling for freedom from
the snarls of mares despite the fact
that hostilities ceased in the western
front nearly seventeen months ago.

The treaty of Versailles, rejected
by the senate, is in the hands of
President Wilson and with slight
chance of any further action upon
it in the near future. A resolution
declaring the war at an end is be-
fore the house of representatives
but it faces certain veto by the pres-
ident.

World peace—one of the prime
objects of the entrance of the United
States into the war—appears to be
only an idealistic hope for the fu-
ture. The military intelligence di-
vision of the war department today
has information of more than twenty
wars which are raging throughout
the world.

More than sixty war-time laws are
still in force, twenty of which are
considered of major importance to
the every day life of the American
people.

There are 17,533 American sol-
diers in Europe, more than 17,000
of these patrolling the conquered
Rhine territory. Twenty two vessels
of the United States navy, with a
personnel of more than 3,000 men
are still permanently assigned to du-
ty in European waters.

The gross national debt today is
\$24,698,671,000 and on April 6,
1917, it was \$1,281,968,000. The
total cost of the war is estimated by
the treasury department as \$32,-
330,000,000.

Annual taxes to the extent of
\$4,000,000,000 are being paid by
the American people to wipe out the
war debt. There is little hope of
the downward revision of taxes dur-
ing the present year. Secretary of
the Treasury Houston today expressed
opinion that war taxation must
continue for nearly twenty years longer.

The United States is entering upon
a military and naval program
greater than ever before in its his-
tory. The army reorganization bill
before the senate today calls for a
standing army of more than twice
as great as that of April, 1917.
Secretary of the Navy Daniels has
urged congress for a great expan-
sion in the navy.

100,000 MEN ARE MOVED FORWARD: BRITISH ACQIESCE

Marshal Foch Fearing Op-
position Ordered Quick
Action.

FEARS FRONTIER

Massing of German Army
In Rhr Threatens
Land.

London, April 6.—One hundred
thousand French troops are being
moved forward from the Rhine into
German neutral territory by
Marshal Foch, according to a report
current here today.

It is regarded as significant that
the Daily Express, which is close to
A. Bonar Law, stated this morning
that France would not move her
troops from the Rhine without allied
approval.

From a reliable source it is learned
that the advance ordered by
Marshal Foch took the cabinet by
surprise and may result in a tense
diplomatic situation.

Numerous reports were current.
One of them was to the effect that
Great Britain has reversed her for-
mer opposition to the French ad-
vance, having become convinced that
Germany had sent more than a mere
police force into the Ruhr district.
This report was without official con-
firmation, however.

Later communication was restored
and it was learned that the oc-
cupation had been carried out quietly
by French senelesse troops. They
are quartered in the railway station,
the postoffice and the castle and
have occupied all the public build-
ings.

The mayor issued a proclamation
asking the people to abstain from
violence and to remain at work.
Frankfort, which was occupied at the
same time as Darmstadt, was also
taken over by the senelesse troops.
The occupation was carried out
without incident. The French forces
were quartered in the railroad yards
and elsewhere. The French com-
mander, as soon as occupation was
complete issued a proclamation ask-
ing the populace to remain calm.

Developments indicated that Mar-
shall Foch, foreseeing allied opposition
to the French troop movement
ordered the French forces to ad-
vance immediately.

The occupation of towns in the
neutral zone has already led to im-
portant diplomatic exchanges, it is
understood. According to advices
reaching the war office, the German
government has sent 75,000 German
troops into the Ruhr district.

A. Bonar Law, leader of the gov-
ernment in the British house of
commons, held a long conference
with M. Cambon, the French am-
bassador to England.

French anxiety over the situation
in Western Germany arises from two
causes:

1.—Fear for the safety of the
eastern frontier of France if the
Germans are allowed to mass a big
army in Western Germany in viola-
tion of the Versailles treaty.

2.—The possibility that the coal
fields in the Ruhr district of Ger-
many will be tied up or perhaps de-
stroyed, thus making it impossible
for France to secure from Germany
the coal promised by the peace
treaty.

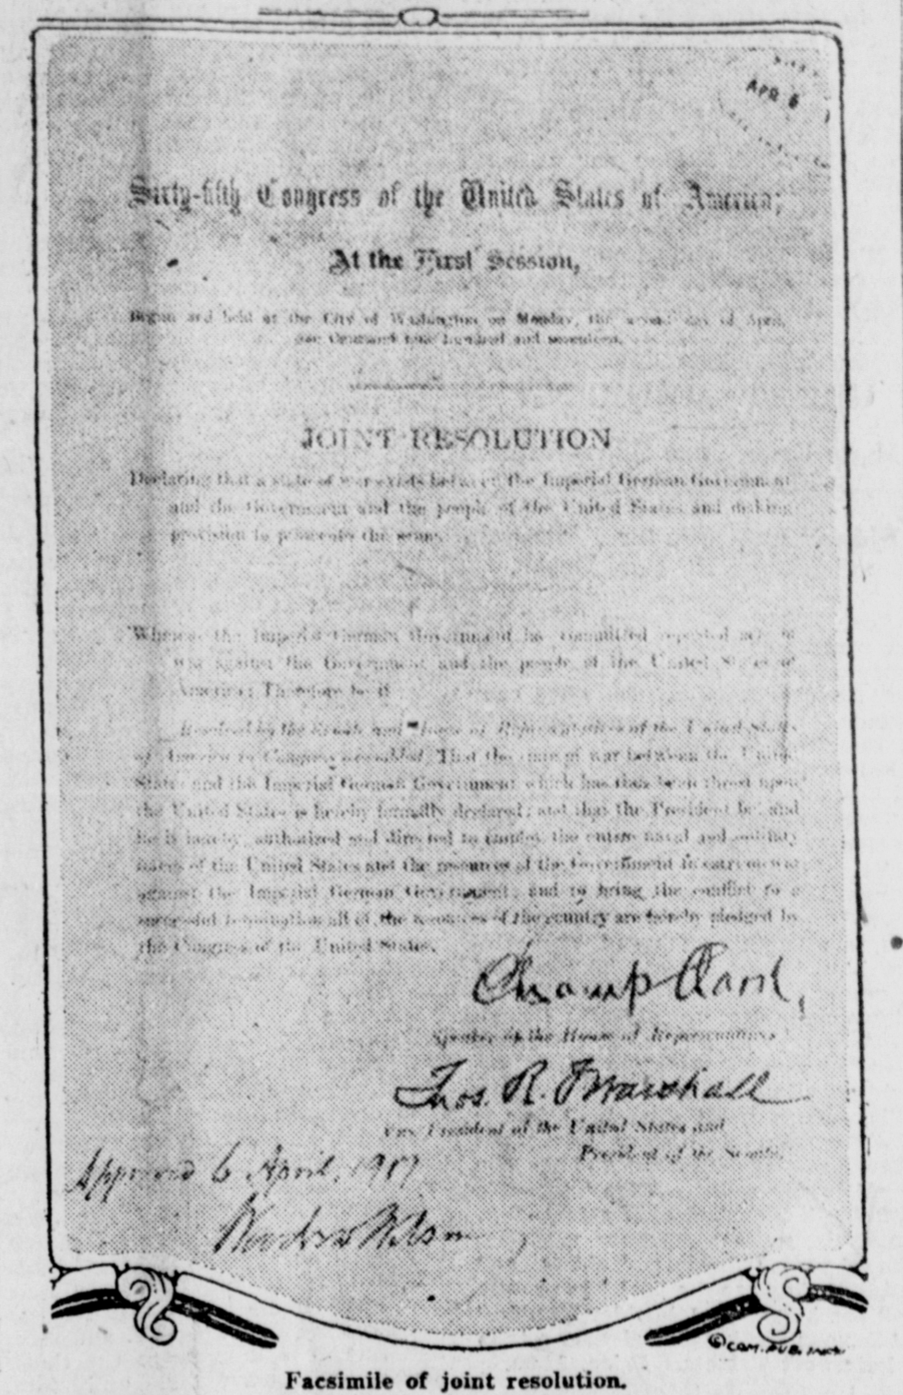

POLITICAL TWIST IS GIVEN TO BANQUET OF CHURCH MOVEMENT

On board Rockefeller Special,
Pittsburg, Pa., April 6.—Members
of the Rockefeller party are worried
about the political twist which was
given to the banquet of the Inter-
Church World Movement at Wash-
ington last night. The ovation to
Lansing and the remarks of Dr. John
R. Mott, which was taken by the
Washington audience as a criticism
of President Wilson, disturbed the
members of the party. Dr. Mott left
the Rockefeller tour at Washington
at midnight and returned to New
York City. The others came on to
Pittsburg for a day of mass meet-
ings.

"I'm sure that no one at the
banquet intended to make a political
affair out of it," said one of the
church leaders on the train. "Wash-
ington puts political interpretation on
everything it hears and we can't help
what the audience read into Dr.
Mott's statements."

Mott's approval of Lansing, dur-
ing his one hour address, was stud-
ied and deliberated. Lansing, who is
chairman of the executive commit-
tee of the Inter-Church World Move-
ment, was obviously affected. Mott
after describing Lansing as possess-
ing one of the finest international
minds in the world and being one of
the finest Christians in America,
said, "he is a man in whom we still
put our trust." The applause lasted
for three minutes.

U. S. GOVERNMENT DECLARED WAR ON GERMANY THREE YEARS AGO TODAY

Three years ago today America cast its lot with the allies in the world
war against Germany and her pawns. The joint resolution, declaring war,
was passed by the house of representatives and the senate April 6, 1917.
A facsimile of the resolution is shown above, bearing the signatures of
Champ Clark, speaker of the house; the signature of Vice President Mar-
shall, president of the senate, and that of President Wilson.

COLBY SILENT ON POSITION OF U. S. IN PRESENT INTERNATIONAL CRISIS

Washington, April 6.—The
United States has not made any
formal protest against the
French occupation of cities in the
neutral zone of Germany. It was
officially announced today.

This statement followed Sec-
retary Colby's refusal to com-
ment on reports that a protest
had gone forward. Secretary Col-
by did not meet the newspaper-
men in the usual morning con-
ference.

Secretary Colby has had a long
conference with Ambassador Jus-
serand of France and it is possi-
ble that an informal statement
of the attitude of the United
States has been made.

SHEETS CASE WILL BE GIVEN HEARING MAY 11

The case of The State on the rela-
tion of George W. Sheets, against
Chas. S. Johnson has been espe-
cially assigned for hearing by the Court of
Appeals in Springfield, May 11.

When the case was called in the
Court of Appeals Monday, counsel for
Mr. Sheets said that they had not had
an opportunity to examine the answer
of Mr. Johnson and wanted their legal
time which was 30 days, in which to
file any pleadings they wished. This
was granted.

Prosecutor Harry D. Smith asked to-
day that the case be especially as-
signed for hearing as is permitted by
law in a matter in which a public
office or official is concerned, and upon
agreement of counsel, it was set for
hearing May 11, when the Appellate
Court will be in session in Spring-
field.

EXAMINATION TO BE HELD FOR PATROLMAN

The local Civil Service commission
will hold an examination Friday morn-
ing at nine o'clock for the purpose

by the promotion of Chief M. E. Gra-
ham from the ranks.

The examination will be given in the
commission chamber of the city build-
ing and applicants for the position
should be on hands at that time to
take it.

ation, has the honor of owing the
second charter granted in Ohio to
an auxiliary of the American Legion.
It is thought that the first auxiliary
to be granted a charter is in Toledo.

A meeting of the auxiliary to the
local post, for the purpose of form-
ing an organization, will be held
Thursday evening at the Chamber
of Commerce. Wives, mothers,
daughters, and sisters of members
of Foody Post are eligible to mem-
bership, and they are urged to at-
tend, so that they may become char-
ter members, and take part in the
organization.

date in any primary election in the
state.

With 1,165 precincts out of 2,421
in the state already counted, the Cal-
ifornian is leading by 44,303 votes
over Leonard Wood, his closest op-
ponent.

Johnson swept the city of Detroit
clean. Here he beat Wood by more
than four votes to one. His majori-
ty over Wood in the 319 precincts of
the city proper was 52,861. This
gave him a lead that Wood is not
expected to approach by 30,000 in
other parts of the state. Wood's
lead in the 846 precincts outside of
Detroit was less than 10,000 votes.

Governor Lowden was trailing 30,-
000 votes behind Wood when half of
the state had been counted. Hoover
was bringing up the rear.

The vote in 1,165 precincts, includ-
ing Detroit complete, was as follows:
Johnson 105,786; Wood 59,483;
Lowden 33,298; Hoover 29,782.

In a veritable blizzard of ballots,
Detroit hurled Johnson so far out in
the lead that it was evident early in
the count that Wood could not hope
to overtake him. The complete vote
in Detroit's 319 precincts follow:
Johnson 69,004; Wood 16,143;
Hoover 12,558; Lowden 11,009; Persh-
ing 2,779.

In 846 precincts outside of Detroit
the vote was:
Wood 43,340; Johnson 34,782; Low-
den 22,280; Hoover 17,224.

This includes a large slice of the
upper peninsula which was Wood's
one redoubtable stronghold. In other
parts of the state Johnson was
running neck and neck with his chief
opponent.

Congressman Louis Cramton,
Johnson's state manager, announced
today that Johnson's majority over
Wood in the whole state would be
close to 30,000 votes.

Governor Edwards of New Jersey
led Hoover by such a wide margin in
the city of Detroit that there is a
possibility that he may have won the
whole state. The latest figures on
the Democratic race follows:
Edwards 7,142; Hoover 4,977.

McAdoo, Palmer and Bryan are
trailing far behind in that order.
Early returns indicated today that
Bryan was running second but he
soon lost his lead.

WAR ON LOAFERS IN COLUMBUS IS BEGUN BY POLICE

Columbus, O., April 6.—Loafers in
Columbus must get jobs.

Officers have been instructed to ar-
rest suspicious persons and vagrants
at all times. Promise of co-operation
in cleaning up the city was given Pol-
ice Chief French by Municipal Judge
Osborn.

Overhearing Herman Smith, 490
West Poplar avenue and Charles Hen-
ry, negro, 107 Maple street refuse jobs
paying 45 cents an hour at the state
free employment bureau yesterday,
Patrolman Swisher nabbed them. On
vagrancy charges the judge gave
each 30 days in the workhouse and
fines of \$52.75, to be worked out at 60
cents a day after the 30-day terms
expire.

Police ask that offense not be tak-
en if you are stopped in early morning
hours and questioned. Officers have
been told that persons on streets at
unreasonable times must give account
of themselves.

DANIELS ADVOCATES NAVY SECOND TO NONE IN ADDRESSING SENATE

Washington, April 6.—Advocating
a navy second to none in the world
provided to make such a force pos-
sible, Secretary of the Navy Daniels
appeared today before the naval af-
fairs committee considering the an-
nual navy appropriation bill in ex-
ecutive session.

The program submitted by the
secretary includes the completion of
the three year program authorized in
1916 and partially postponed be-
cause of the war; the construction
of additional ships to make the
United States naval fleet balance in
every respect and authorization of
additional vessels of grades "to
make the navy of the United States
second to none."

One point emphasized by the sec-
retary was the need of additional
provision for the navy on the Pacific.
He said that for the first time in
its history, the United States is
maintaining a fleet on the Pacific
and is not prepared to care for those
ships in "home" ports. The navy
yard facilities of the coast are "in-
adequate."

GERMAN TROOPS ADVANCE TOWARD RUHR DISTRICT

Move In Battle Forma-
tion On Radical
Army.

FIGHTING IS REPORTED

French Prohibit Traffic
During Night Hours
in District.

London, April 6.—In battle for-
mation and supported by advance
guards of airplanes the German
government troops are moving into
the Ruhr district clearing towns of
the red forces, according to a dis-
patch from Berlin today.

Heavy fighting developed at some
points where the reds offered armed
resistance.

According to an official statement
given out at Berlin 300 men were
killed in fighting around Wickede,
in Westphalia. The reds made a
strong attack against the station at
this place.

The armen assisted the govern-
ment troops in their attacks in
Westphalia.

German regulars are advancing
north of Batrop and east of Dort-
mund and have already cleared
Camen and Lunen, two important
railway towns, of armed workmen,
said another official statement issued
at Berlin.

The Central News correspondent
at Copenhagen reports that the Ger-
man reds are retreating along the
Ruhr canal to strongly fortified po-
sitions. The reds were said to be
offering resistance to the govern-
ment forces and that panic prevailed
at some places.

The French military authorities
in the new zone of occupation have
forbidden traffic on the streets be-
tween 9 p. m. and 5 a. m. Trans-
port with the rest of Germany has
been cut off except for the move-
ment of food. Censorship has been
established and the newspapers have
been suspended.

POLICE DOUBLE EFFORTS WHILE STRIKE BREAKS

Thousand Switchmen Im-
ported To Clear
Trouble.

Chicago, April 6.—Police vigilance
was redoubled in Chicago railroad
yards today as more than 1,000
switchmen from out of town points
began arriving to break the outlaw
switchman's strike which has crippled
the service of railroads running into
Chicago, paralyzed normal activities
at the stock yards, and brought about
the freight embargo.

As fast as the out of town switch-
men arrived they were placed in the
jobs of the strikers. All are mem-
bers of the Brotherhood of Railroad
Trainmen, which is co-operating with
the railroad officials to break the
strike. The railroad heads believe that
by Saturday traffic will be almost back
to normal.

The police fear, however, that the
arrival of the outsiders will anger the
strikers to the point of violence, and
consequently every available man from
the force has been detailed to patrol
the railroad yards. The chief of pol-
ice is prepared to ask for aid from
the state militia, if necessary.

The prospect that 50,000 men may
be thrown out of work because of the
situation at the stock yards contin-
ues.

CITIZENS SCORE SOUTHERN POLICE FOR ACTIVITIES

Steubenville, April 6.—A petition ex-
pressing utter contempt for the man-
ner in which county authorities have
acted in the matter of the murder of
little 11-year-old Frances South of
Adena, Ohio, signed by 75 citizens of
Mt. Pleasant and Smithfield Town-
ships, is to be forwarded to Governor
Cox, it was announced here today by
circulators of the petition.

Game Warden John Crawford, who
arrested Mike Anankuk of Ramsey,
now held on charge of murder, him-
self was arrested Saturday at Adena
on a charge of assault and battery,
preferred by Harry Salchuk of Adena,
who alleges Crawford assaulted him
on a train near Adena after Crawford
had questioned him in connection with
the murder. Crawford was bound over
to the grand jury.

Citizens here are demanding a right
investigation by the county grand
jury of the murder and subsequent
proceedings, including the arrest of
Anankuk, it is said.

LET US ALL STAND BY THE GOOD MOTTO "LIVE AND LET LIVE."

The open shop was upheld by the full bench of the Massachusetts Supreme Court when it ordered a permanent injunction to issue against photo-engravers' local and international unions, restraining them from interfering with the business and Wright and Company, and the Folsom Engraving Company.

The court said that the right of the plaintiffs at all times to hire in the open market such workmen as they choose, unhampered by the interference of the union acting as a body through the instrumentality of a strike, boycott or blacklist, is a primary right which has never been abrogated.

Capital and labor should always have been partners, but alas instead they were for long years enemies, because one of the partners wanted to act the hog and take more than his share of the profits. This was because he had the whip-hand in the transaction—had the money—and hence could deny the means for business, and throw labor out of employment. This meant that that Capital could dictate the price at which the laborer should work, or he would starve him to death.

Under such circumstances it was but natural that the laborer should seek to find a way out of this unjust division of the profits made by his work. He could not do it single handed, and had to resort to united force, or in other words to the Labor Union. So it comes about that Labor Unions have proven to be the greatest God-send ever devised to secure justice to the laboring man, and that public opinion has endorsed them.

But, on the other hand, there are millions of people not members of labor unions, and they have just the same right to work and get the means to support their families, as do the members of the Unions, and to deny them this right is rank injustice, and should everywhere be unlawful. "Live and let live" should be a motto stronger than the rules of any labor union. And common sense should shame any man from denying to a fellowman the rights which he claims for himself.

THE RICHEST BLESSING.

At no time in the past have so many remarkable gifts been made to philanthropic and benevolent purposes as those that have come out of the sympathies created by the great war. One of our most public spirited men, who has been actively interested in the relief campaign in the Near East which has aided the starving multitudes in Armenia, Syria and Palestine, is Mr. Bayard Dodge, son of a well-known citizen, Cleveland H. Dodge. After a personal study of conditions over there, he has come to the conclusion that financial aid is not the only kind that is needed for these distressed peoples. "The greatest gift America can give them," he is quoted as saying, is not "money, food and clothing, although these things are vital for the moment. The great gift which our country can provide is that of teaching the people again how to live and how to love as Jesus lived and loved."

It is to the everlasting honor of our people that the opportunity fell to their hands not only to give practical expression to their loving kindness in gifts and material helpfulness, but to rekindle in the oppressed peoples the consciousness of character and unselfishness; to teach them the lesson to live for each other rather than for themselves.

Through American missionary influence, thousands of helpless families in the Near East have been given a new start in life, and still more thousands of children have received the benefit of education in the mission schools. Above all, the Gospel has been preached through the length and breadth of the Levant, and the Word of God printed in many languages so that the different nationalities might read it understandingly. The beautiful high schools and colleges that have been founded are worthy monuments to the sincerity of our Christian friendship for those old Bible lands; but the deeper friendship is that which has been kindled in the hearts of the people themselves, by our giving them "the greatest gift," teaching them how to live and love as the Saviour of men would have them do. This beyond all comparison is the richest blessing one nation could bring to another. —Christian Herald.

WHERE MANY MOTHERS ARE THE BREAD WINNERS.

An intensive study of one hundred cities proves that more mothers are wage-earners, outside of home, than ever before.

In New York City, one mother out of every six homes earns; in Boston, one wife in every ten earns; in Cleveland, one in seven; in Charleston, S. C., but one in one hundred and fifty—proving that in some places women are still flowers.

Now there is no reason why mother should not work, if the children and the home do not suffer. Some of these mothers work out of economic pressure, which is too bad; others because the modern school and the scientific housekeeping make it possible to put the puddings in a fireless-cooker, and the brain in a full-time job.

But what really interests us is the effect upon the royal position of father. He will be no longer the impressive messenger to an admiring household from the great wide world. And unless mother is the queen of tact, his word will no longer be the source of all truth.

Rippling Rhymes

THE GARDEN.

IN my common workday duds to the garden I repair, and I plant some luscious spuds and some boneless nutmegs there. And I see my neighbors gay burn the costly gasoline, while I plant my bales of hay, and the early Lima bean. And they go, all primed with cash, to the moving picture shows. While I sow my succotash, Brussels sprouts, and things like those. They'll be buying costly eats (and the price will make them cry), while I pluck my home grown beets, and consume the rhubarb pie. I've a little plot of soil, fifty by a hundred feet; there'll I raise, by honest toil, all the things I wish to eat. I'll have pumpkins I can sell, squashes till you cannot rest, and young onions that will smell much like Araby the blest. I'll have things to boil and bake. I'll have cauliflower to spare, and my cabbage heads will take premiums at the county fair. I'll have growing greens enough all my family to keep, and the Cost of Living stuff will not rob me of my sleep. If the boys would fall in line, raising garden sass this year, they might drop the plaintive whine, "All we eat is so blamed dear!"

CHATTER

"I bought a new hat for my wife today, and ran all the way back with it."

"What did you run for?" "I was afraid the styles would change before I got home."

"Mamma, I lost my gum," cried little Harold. "Hush, darling," she cut him off, then smiled apologetically at her guests.

"Mamma, I lost—" this time the mother, smiling vacantly over her portion of the chop suey lunch, effectively stopped Harold with a sharp pinch of his leg under the table.

When the guests had all gone Harold pouted the explanation: "All I wanted to tell you, mamma, was that I'd lost my gum in your chop suey, but you wouldn't let me finish."

A colored veteran just back from the other side when questioned about an iron cross he was wearing, explained: "Boss, it was a extra decoration. De kaiser himself sent it to me by a special messenger what dropt daid 'jus' befo' he gave it to me."

An old lady, in London for the first time in her life, saw a glaring sign on the front of a high building, which read: "The Smith Manufacturing Company." "Lawks a-mercy," she remarked to her nephew, "I've heard of Smiths all my life, but I never knew where they made 'em."

RICHISON TO SUCCEED AUGUSTUS AS HEALTH DIRECTOR, SPRINGFIELD

Dr. Rush Richison, of Yellow Springs, Superintendent of the District Tuberculosis Hospital near Springfield and now Clark County Health Commissioner was appointed health director of Springfield, to succeed Dr. C. G. Augustus, resigned, by unanimous vote of the Springfield city commission Monday night.

An ordinance providing Dr. Richison a yearly salary of \$2,600 with a bond of \$2,000 was also unanimously passed on suspension of the rules. This is a reduction of \$200 from the salary that Dr. Augustus received.

Dr. Richison is employed as county health commissioner part time only. With both salaries he will receive \$5,000 annually.

The appointment of Dr. Richison is the working out of a plan formulated by City Manager O. E. Carr to combine the county with the city health department to insure a more efficient and economical operation of both departments. Dr. Richison will retain the offices used by Dr. Augustus in the city hall.

With the increasing work of the health department it is expected by the Springfield Manager that it will be necessary to employ a full time assistant for the health director at a salary of \$2,400 a year. It is also expected that Dr. Richison will resign his position as Superintendent of the district tuberculosis hospital.

Although Judge William M. Rockel, president of the county health board has declared himself as opposed to the plan of combining the city and county health departments it is understood that all other members are in favor of the plan. The state department of health and other agencies interested have expressed themselves as warmly approving the joint plan.

THE BUNK PROFESSOR WHO THINKS HE KNOWS WHEN THE WORLD IS GOING TO END.

Is It Yours

This is the Birthday of Jean Rousseau April 6, 1671.

Jean Baptiste Rousseau, French poet, was born in Paris on the sixth of April, 1671. He was the son of a shoemaker, but in spite of the difficulty that poor people had in those days in gaining an education, he managed to pick up quite a bit of learning by the time he was a young man.

He was encouraged to write by some literary men whom he met, and he began doing theatrical comedies. None of them were successful. He acquired enough reputation, however, to be appointed to a part of the diplomatic service. Then, when he was on the threshold of success, he began an unfortunate quarrel which spoiled the rest of his life.

It appears that he got into a serious quarrel with another writer in one of the cafes patronized by the leading literary men of the time. Following this quarrel, a number of libellous and rather obscene verses appeared and were attributed to him. After that, whenever such verses against literary men appeared, people believed Rousseau to be their author, so that he was frequently unjustly accused. The feeling against him grew so strong that he was exiled from his country. After his death, however, his poetry became extremely popular.

GREAT MEDICINE

Made From Corn Silk—Excites Favorable Comment.

Kidney and Bladder Ailments Banished By Few Doses.

Corn Silk! The same "silk" you see protruding from the husk of corn, produces a fine medicine for kidney and bladder irregularities, when compounded with other simple drugs as in Balmwort Tablets.

Balmwort Tablets contain a powerful extract of corn silk, which quickly relieves the inflammation and congestion that causes such distress as pains in back and hip, rheumatic twinges, nervousness, severe headaches, accompanied by frequent desire to eliminate, followed by scalding, burning sensation. The patient is compelled to arise frequently to relieve painful pressure, even though a scanty flow follows. The eyes appear "bloodshot," the sleep is restless, and sometimes fever, followed by chills, causes great unrest. It is unwise to neglect such symptoms, when a few doses of Balmwort Tablets can be taken for relief. Alice Trobrough, 5627 South Twenty-fourth street, Omaha, Neb., writes: "I have used one tube of your Balmwort Tablets and find that they are the best I have ever used for kidney and bladder trouble."

Ask your leading druggist for a tube of Balmwort Tablets. Price, \$1.00.

BOY HANGS HIMSELF

Elyria, April 6.—Refused permission to go to the movies alone, Robert Beach, Jr., 11 years old, hanged himself in the cellar of his home. The boy had passed a window cord over some gas pipe and had jumped from some old furniture. Dr. A. F. Lawrence said the perk had broken his neck.

AN EXCEPTION TO OLD ADAGE WAS BLESSING

Woman Decided to Take Other Peoples Advice and Is Greatly Benefited By Trutona.

Springfield, O., April 5th, 1920.—Mrs. Albert J. Hunter, wife of A. J. Hunter who is connected with the Western Mutual Life Insurance Company here, and resides at 319 Cedar street, decided to try Trutona because so many other people spoke so highly of the new medicine. The remarkable benefits she gained from its use are explained in her interesting statement which is as follows:

"My general system became run down by continued suffering from stomach and nervous troubles. My appetite was very poor and what little food I would eat didn't seem to digest as it should, which caused me to bloat and belch for about an hour after meals. I'd often feel tired and worn out during the day, as restless nights were not unusual things for me. I'm not positive but it seemed that I was losing in both weight and strength.

"I had heard Trutona spoken of so often to try it, and I can truthfully say that I am very glad that I made that decision. I feel so much better now. I can eat hearty meals these days and they are properly digested, too. I'm not so nervous now and I feel as though I'm gaining both my weight and strength back again. I think Trutona is a splendid medicine and I'm glad to recommend it."

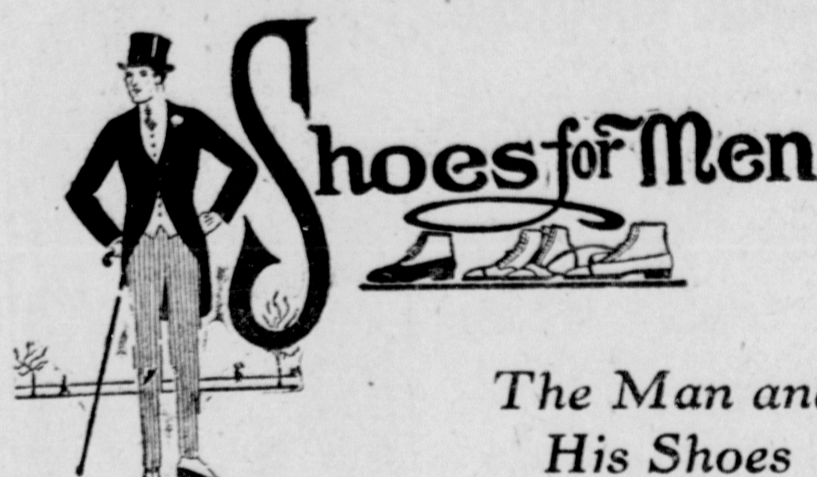

Trutona is now being introduced and explained in Xenia at Sayre & Hemphill's drug store.

"Vicks" GET IT AT Donges

Want Pink Cheeks—Red Lips?

Some unfortunate men and women are prone to wonder why some of their friends are blessed with an abundance of color—pink cheeks and red lips—while theirs are always colorless. The reason for this last named condition is—there is not enough red blood corpuscles in blood—under a microscope the blood is thin and watery. The flesh is flabby too. Well known physicians assert that the regular administration for several months of three-grain hypo-nuclease tablets will greatly improve the color, add to the weight, make the cheeks pink and the lips red and in general be very beneficial. For self-administration, obtain from any of the best apothecary shops.

From Editorial in the Gazette Times January 20, 1920. CHANCES OF STRIKING OIL. The big producers are being found by drillers in the southwestern fields of the United States, but there is more certainty of "striking" oil in Pennsylvania, where the product commands the highest price and the wells last long. The country over, the drillers' chances are approximately four to one in favor of getting oil; in Pennsylvania he has approximately nine chances of success to one of a failure. This was learned from the Oil City Derrick's report of drilling operations during 1919.

In the United States as a whole 23,452 wells were completed, of which 5,951 were dry, or non-productive. In Pennsylvania the completion, totalled 5,178, of which only 573 brought total disappointment to the owners. The chief reason for the discrepancy is apparent. In the newer fields there is genuine wild-catting; the oil bearing areas of Pennsylvania are well defined. But the risk one runs in drilling an oil well is not wholly exposed by the figures quoted. It is not precise to say that there is a 3 to 1 chance of success in Pennsylvania, for if one fails his loss is virtually total as to that well. And so it is wherever one drills. But if one gets oil he may, at present prices have the equivalent of a fortune in a comparatively small producer. It is an alluring hazard. That is what the unprecipitated prices offered for crude are intended to make. Apparently they are proving effective but the new production is not sufficient to balance the demand which is growing at a prodigious rate. Therefore still higher prices may be expected. The prospective reward must balance the risk that is taken in any form of gambling, and drilling for oil, wherever it is undertaken, is a gamble. This means that every investor is what a wonderful buy you have made

EAST END NEWS

Mrs. Mary E. Harris, correspondent, East Market street. News can be left at the following named places, Holmes Grocery, Leach & Clark and East End Drug Store.

The Vesper services at St. John's A. M. E. church Sunday afternoon were of a very high order, as is characteristic of all special services under the auspices of the choir of this church. The following program was rendered:

Voluntary—Miss Helen W. Ferguson.

GREATEST OF ALL BLOOD PURIFIERS

In the Spring everybody needs Evans' Triple Phosphates to restore energy, appetite and ambition.

Nervous rundown men and women whose strength has been sapped by confinement to home, store or office during the winter months or by an attack of influenza, Grippe or other wasting sickness, and who feel the need of more strength, better assimilation and a quick and effective toning up of the nerves, will find nothing to compare with Evans' Triple Phosphates. It's really wonderful what this famous tonic will do for frail, rundown people who have no appetite or ambition.

If you want to see the glow of healthy blood in your cheeks, have bright eyes and be full of energy and ambition, let your fight for better health begin now.

All good pharmacists dispense Evans' Triple Phosphates in the original bottle on the money back if dissatisfied plan. You are sure to get it at Sohn's Drug Store.

Says Fat People Now Rejoice
Testimony Proves Arbolone Safe, Sure Reducer.
Enjoys Wide Sale Amongst Educated Wealthy Set.

The physician who originated the Anti-Fat treatment known to physicians and druggists as "five-grain tablets Arbolone" is being praised and thanked by scores of women in the class known as "society devotees."

A literary woman in Los Angeles, being so highly elated over her success, in reducing, has written a clever little poem, which recites the facts and expresses deep gratitude as well. To safely and surely reduce from 20 to 60 pounds is easily accomplished when tablets Arbolone are used regularly. They are not drastic or dangerous, used as directed, but simply and surely dissolve the fatty elements and eliminate from the system. Also they remove the craving for such foods as are not desirable for fat folks to use. Herein, Arbolone is superior to all other anti-fat medicines, as it automatically overcomes the abnormal, perverted appetite for starchy foods, etc. Sold by all druggists in sealed tubes with full directions.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pains in the back, headache, loss of ambition, nervousness are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Gazette or Republican.

Cadomene the "Miracle Medicine"
Many People Have Written of the Seeming "Miracles" Performed by Cadomene Tablets.
They Are Only Recommended For Worn-Out, Impoverished, Nervous People, But—

People have testified that they have been cured of rheumatism, headaches, stomach disorders, pains of neuralgia, etc., through the use of this great medicine- tonic, Cadomene Tablets. It only means that the Cadomene has helped to build up the strength of all organs and then nature has a chance to bring the cure. Therefore, if you are tired, sluggish, and your feet and hands are cold and clammy, and nervousness, overwheled you by sleeplessness, irritable temper, and your heart flutters while dizziness and trembling seize you at times, you may ward off serious consequences and become full of vigor, red blood and health for every vital organ of your body. Mr. J. W. Biggs of R. R. No. 3, Fort Worth, Texas, writes: "I am using Cadomene Tablets and find them to be good in every way for an old man of 50." F. W. Barbeau, 1327 Inca Street, Denver, Colo., writes: "I have taken one package of Cadomene and it has put me on my feet and I feel fine." Cadomene builds up nerves and bodily vigor. All druggists—Adv.

At the Sunday school hour, a very helpful program was rendered by primary and juniors, after which Easter eggs were given to the school, the adult classes receiving Easter card. At the evening service hour, the Junior Choir rendered the Cantata, by J. S. Witty, "From Gethsemane to Calvary," which was indeed inspiring from start to finish, the young people can feel complimented, for each of them had learned with almost perfection their different parts. Miss Florence P. Howe was the director.

For 50 cents you can get 3 ounces of Glando Pine, mix it with enough good syrup or strained honey to make a pint and you will have the best cough medicine you ever used. It can't be beat for coughs, colds, hoarseness throat irritations or croup. Glando Pine relieves the spasmodic coughing in whooping cough. Children love to take it. To prevent a cold from developing into pneumonia or bronchitis, hold a teaspoonful of Glando Pine well back in the mouth or throat and take a few deep breaths before swallowing. You can feel the air cells opening up and you will breathe deep and easy.

Mrs. W. M. Fellers, of Lima, Ohio, says: "I took cold which developed into a severe cough. It hung on for several months. I coughed terribly especially at night. I lived in a flat and my neighbors, believing me to have tuberculosis, asked the owner of the flat to have me move out, which he did. I used different remedies, but found no relief until I used Glando Pine. The first dose seemed to help me. I began gaining flesh, and by the time I had used two bottles my cough was gone. Over 2 years have passed and my cough has not returned. I believe Glando Pine saved my life."

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of Influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

CHARGE AGAINST DR. WITHDRAWN; THREE NEW CASES SMALLPOX FOUND

Three additional cases of smallpox have been reported to Dr. R. H. Grube, city health officer.

Of the new cases, one is a child in the family of O. C. Custer, clerk in the Xenia post office, North King street, another a little girl named Sauls, on Hivling street, and another, a Smith child on North West street. The four children ill of the malady are all pupils in the second grade at Central school. Two other cases are at Central high school.

Dr. Grube, who yesterday made an affidavit before Police Judge E. D. Smith charging Dr. H. K. Hawkins with failure to report a contagious disease, in the case of the child of George Dean, later withdrew the charge after receiving the physician's explanation. Dr. Hawkins said that it was his intention at all times to support the health department, and that he had made an unsuccessful effort to get Dr. Grube over the telephone to report the case of suspected chickenpox in the Dean child, whom he saw only once, a short time before the case was investigated by Dr. Grube.

Dr. Hawkins made the following explanation of the matter Tuesday: "Relative to the smallpox cases found Monday, I wish to say that I was called to see a little boy at the residence of Mr. George Dean, last Saturday, and on examination, I found the little fellow with some fever and a few undeveloped eruptions. I told the mother to keep him in bed, as I felt that he might develop chickenpox, but would call the next day. When I reached my office I phoned Dr. Grube three different times, but failed to locate him.

"The next morning I was informed by phone that Dr. Grube had seen the case and diagnosed smallpox. Again I phoned him and failed to get him. Please bear in mind that I only saw the case once, and a few hours later, not days, Dr. Grube was called. "I was treating only one case and I do not know the attending physicians as their names were not mentioned on the other cases.

"While Dr. Grube is perfectly right as I said to him in stamping out contagious diseases, yet I don't wish it understood that I was not doing my professional duty, my desire has always been for the protection of humanity from that dreaded malady. "It is my purpose that the public know my movements in this and like cases coming under my observation.

"Respectfully, "H. R. HAWKINS, M. D."

BASKET BALL STAR LOSES LEG FOLLOWING ACCIDENT RECENTLY

Vernon Schwab, star forward of the victorious Stivers High School basketball team of Dayton, had his right leg taken off six inches below the knee at Miami Valley hospital Monday.

Young Schwab, in company with his brother George, went to Germantown on March 27, where they engaged in target practice, when he was accidentally shot by his brother. He was brought to Dayton, where physicians probed for the lead, but were unable to find it and infection set in making amputation necessary.

The loss of Schwab will be a big one to Stivers, as the lad was one of the shining lights of the team. He took a big part in helping Stivers win the state interscholastic championship at the Delaware tournament and also in the Chicago tournament, where Stivers finished third.

FARMER KILLED WHEN HE ATTEMPTS TO STOP RUNAWAY TEAM

Attempting to stop a team of runaway horses at his home six miles west of Washington C. H., William McLain, 61, farmer, was run over by a wagon wheel crushed his skull, causing almost instantaneous death.

McLain was in the barn when he heard the animals dashing past and he stepped in front of them in an effort to stop them. They bore him down under the wheels, the heavy wagon passing over his head. He never regained consciousness. A son Ernest, almost lost his life in the same manner five years ago when a wheel of a runaway wagon struck his head leaving scars that are still visible, when he attempted to stop a team. A daughter, Dora, was also badly injured in a runaway accident some time ago.

REHEARSALS FOR ELKS' SHOW UNDER WAY

Rehearsals for "The Jollies of 1920" the big show which the Elks will stage at the Xenia Opera house on next Monday and Tuesday nights, April 12th and 13th are now being held under the direction of Ralph H. Hamilton, of the Joe Bren Production Company, Chicago.

A cast of fifty people will be used, including twenty of Xenia's most talented young ladies. Gorgeous costumes and scenery are carried by the Bren Company, and these will be found to compare favorably with those carried by the best traveling professional companies.

The rehearsal Monday night was held at the Chamber of Commerce, promptly at 7:30 and the balance of the rehearsals will be held at the Elks' Club.

The reserved seat sale will begin Thursday morning at 9 o'clock at the Xenia Opera House Box office, at which time the advance tickets now being sold by Elks must be exchanged for reserved seats for either night's performance.

VICTIMS OF AUTO ACCIDENT NOT SERIOUSLY HURT

S. Newton Bennington and John Rachford injured when the Ford taxi in which they were riding collided with the machine driven by Dr. C. G. McPherson at Main and Monroe streets yesterday, were sufficiently recovered from their injuries to be out today.

Participants in the accident seem to place it as unavoidable. Both cars were being driven at a moderate rate of speed, the taxi traveling east on Main on the south side of the street in its proper position, and it is said had the right of way. Dr. McPherson attempted to avoid the collision by turning his car also east on Main, but the attempt was belated and the Ford was turned over on its side by the force of the impact.

Always fill brim full when intending to use as a hot water bottle because if only partly filled you are apt to dent it with your weight—be careful and dry thoroughly after use service.

More Than Half Sold

More than half of the issue of \$600,000 First Preferred of the Mead Fibre Company has been sold.

A survey of the sales record shows that most of the purchasers of this stock have been men and women of means—people experienced in investments.

Three Million Dollars

This illustration is a picture writing. Can you read it? It says: "Thomas A. Edison combined his genius with three million dollars and produced the Official Laboratory Model of the New Edison—the phonograph with a soul."

Always remember this picture-message. Remember the man at the top,—the man whose genius is responsible for it all,—Edison the wizard, Edison the idealist. Remember the three million dollars spent, the seven years he experimented,—the untiring research which spared neither men, materials nor money. Then you will always understand why the Official Laboratory Model of the New Edison is the ultimate development of the phonograph,—why its RE-CREATION of an artist's art and that artist's living art are without difference. Replicas of the original three million dollar model are in our store. You cannot estimate them in terms of other phonographs,—in anything except price. They actually cost no more. We'll put one in your home at once,—and let you pay for it at your convenience.

Make a paste of henna powder and hot water, and after you have shampooed and dried your hair cover it with this paste. Let it stay on for 15 minutes to two hours—the longer it stays on, the richer the shade you will obtain. Rinse off the paste with warm water.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says Nothing Like Plain Argo-Phosphate to Put on Firm, Solid, Stay There Flesh and Muscle and Increase Strength, Vim, Vigor and Nerve Force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate; it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the usually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual health producing qualities it should not be used by any one unless they reside to put on flesh and increase in weight. Dispensed by Sohn's Drug Store.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

LET US ALL STAND BY THE GOOD MOTTO "LIVE AND LET LIVE."

The open shop was upheld by the full bench of the Massachusetts Supreme Court when it ordered a permanent injunction to issue against photo-engravers' local and international unions, restraining them from interfering with the business and Wright and Company, and the Folsom Engraving Company.

The court said that the right of the plaintiffs at all times to hire in the open market such workmen as they choose, unhampered by the interference of the union acting as a body through the instrumentality of a strike, boycott or blacklist, is a primary right which has never been abrogated.

Capital and labor should always have been partners, but alas instead they were for long years enemies, because one of the partners wanted to act the hog and take more than his share of the profits. This was because he had the whip-hand in the transaction—had the money—and hence could deny the means for business, and throw labor out of employment. This meant that that capital could dictate the price at which the laborer should work, or he would starve him to death.

Under such circumstances it was but natural that the laborer should seek to find a way out of this unjust division of the profits made by his work. He could not do it single handed, and had to resort to united force, or in other words to the labor union. So it comes about that labor unions have proven to be the greatest God-send ever devised to secure justice to the laboring man, and that public opinion has endorsed them.

But, on the other hand, there are millions of people not members of labor unions, and they have just the same right to work and get the means to support their families, as do the members of the unions, and to deny them this right is rank injustice, and should everywhere be unlawful. "Live and let live" should be a motto stronger than the rules of any labor union. And common sense should shame any man from denying to a fellowman the rights which he claims for himself.

THE RICHEST BLESSING.

At no time in the past have so many remarkable gifts been made to philanthropic and benevolent purposes as those that have come out of the sympathies created by the great war. One of our most public spirited men, who has been actively interested in the relief campaign in the Near East which has aided the starving multitudes in Armenia, Syria and Palestine, is Mr. Bayard Dodge, son of a well-known citizen, Cleveland H. Dodge. After a personal study of conditions over there, he has come to the conclusion that financial aid is not the only kind that is needed for these distressed peoples. "The greatest gift America can give them," he is quoted as saying, is not "money, food and clothing, although these things are vital for the moment. The great gift which our country can provide is that of teaching the people again how to live and how to love as Jesus lived and loved."

It is to the everlasting honor of our people that the opportunity fell to their hands not only to give practical expression to their loving kindness in gifts and material helpfulness, but to rekindle in the oppressed peoples the consciousness of character and unselfishness; to teach them the lesson to live for each other rather than for themselves.

Through American missionary influence, thousands of helpless families in the Near East have been given a new start in life, and still more thousands of children have received the benefit of education in the mission schools. Above all, the Gospel has been preached through the length and breadth of the Levant, and the Word of God printed in many languages so that the different nationalities might read it understandingly. The beautiful high schools and colleges that have been founded are worthy monuments to the sincerity of our Christian friendship for those old Bible lands; but the deeper friendship is that which has been kindled in the hearts of the people themselves, by our giving them "the greatest gift," teaching them how to live and love as the Saviour of men would have them do. This beyond all comparison is the richest blessing one nation could bring to another.—Christian Herald.

WHERE MANY MOTHERS ARE THE BREAD WINNERS.

An intensive study of one hundred cities proves that more mothers are wage-earners, outside of home, than ever before.

In New York City, one mother out of every six homes earns; in Boston, one wife in every ten earns; in Cleveland, one in seven; in Charleston, S. C., but one in one hundred and fifty—proving that in some places women are still flowers.

Now there is no reason why mother should not work, if the children and the home do not suffer. Some of these mothers work out of economic pressure, which is too bad; others because the modern school and the scientific housekeeping make it possible to put the puddings in a fireless-cooker, and the brain in a full-time job.

But what really interests us is the effect upon the royal position of father. He will be no longer the impressive messenger to an admiring household from the great wide world. And unless mother is the queen of tact, his word will no longer be the source of all truth.

THE GARDEN.

IN my common workday duds to the garden I repair, and I plant some luscious spuds and some boneless nutmegs there. And I see my neighbors gay burn the costly gasoline, while I plant my bales of hay, and the early Lima bean. And they go, all primed with cash, to the moving picture shows. While I sow my succotash, Brussels sprouts, and things like those. They'll be buying costly cats (and the price will make them cry), while I pluck my home grown geese, and consume the rhubarb pie. I've a little plot of soil, fifty by a hundred feet; there'll I raise, by honest toil, all the things I wish to eat. I'll have pumpkins I can sell, squashes till you cannot rest, and young onions that will smell much like Araby the blest. I'll have things to boil and bake. I'll have cauliflower to spare, and my cabbage heads will take premiums at the county fair. I'll have growing greens enough all my family to keep, and the Cost of Living stuff will not rob me of my sleep. If the boys would fall in line, raising garden sass this year, they might drop the plaintive whine, "All we eat is so blamed dear!"

CHATTER

"I bought a new hat for my wife today, and ran all the way back with it."

"What did you run for?" "I was afraid the styles would change before I got home."

"Mamma, I lost my gum," cried little Harold. "Hush, darling," she cut him off, then smiled apologetically at her guests.

"Mamma, I lost—" this time the mother, smiling vacantly over her portion of the chop suey lunch, effectively stopped Harold with a sharp pinch of his leg under the table.

When the guests had all gone Harold pouted the explanation: "All I wanted to tell you, mamma, was that I'd lost my gum in your chop suey, but you wouldn't let me finish."

A colored veteran just back from the other side when questioned about an iron cross he was wearing, explained: "Boss, it was a extra decoration. De kaiser hisself sent it to me by a special messenger what drop daid jus' befo' he gave it to me."

An old lady, in London for the first time in her life, saw a glaring sign on the front of a high building, which read: "The Smith Manufacturing Company."

"Lawks a-mercy," she remarked to her nephew, "I've heard of Smiths all my life, but I never knew where they made 'em."

RICHISON TO SUCCEED AUGUSTUS AS HEALTH DIRECTOR, SPRINGFIELD

Dr. Rush Richison, of Yellow Springs, Superintendent of the District Tuberculosis Hospital near Springfield and now Clark County Health Commissioner was appointed health director of Springfield, to succeed Dr. C. G. Augustus, resigned, by unanimous vote of the Springfield city commission Monday night.

An ordinance providing Dr. Richison a yearly salary of \$2,600 with a bond of \$2,000 was also unanimously passed on suspension of the rules. This is a reduction of \$200 from the salary that Dr. Augustus received.

Dr. Richison is employed as county health commissioner part time only. With both salaries he will receive \$5,000 annually. The appointment of Dr. Richison is the working out of a plan formulated by City Manager O. E. Carr to combine the county with the city health department to insure a more efficient and economical operation of both departments. Dr. Richison will retain the offices used by Dr. Augustus in the city hall.

With the increasing work of the health department it is expected by the Springfield Manager that it will be necessary to employ a full time assistant for the health director at a salary of \$2,400 a year. It is also expected that Dr. Richison will resign his position as Superintendent of the district tuberculosis hospital.

Although Judge William M. Rockel, president of the county health board has declared himself as opposed to the plan of combining the city and county health departments it is understood that all other members are in favor of the plan. The state department of health and other agencies interested have expressed themselves as warmly approving the joint plan.

THE BUNK PROFESSOR WHO THINKS HE KNOWS WHEN THE WORLD IS GOING TO END—

Is It Yours

This is the Birthday of Jean Rousseau April 6, 1671.

Jean Baptiste Rousseau, French poet, was born in Paris on the sixth of April, 1671. He was the son of a shoemaker, but in spite of the difficulty that poor people had in those days in gaining an education, he managed to pick up quite a bit of learning by the time he was a young man.

He was encouraged to write by some literary men whom he met, and he began doing theatrical comedies. None of them were successful. He acquired enough reputation, however, to be appointed to a part of the diplomatic service. Then, when he was on the threshold of success, he began an unfortunate quarrel which spoiled the rest of his life.

It appears that he got into a serious quarrel with another writer in one of the cafes patronized by the leading literary men of the time. Following this quarrel, a number of libellous and rather obscene verses appeared and were attributed to him. After that, whenever such verses against literary men appeared, people believed Rousseau to be their author, so that he was frequently unjustly accused. The feeling against him grew so strong that he was exiled from his country. After his death, however, his poetry became extremely popular.

STOMACH GOOD AS NEW. FOUR DOCTORS GAVE HER UP

Mrs. Hendricks, Bedford Five Months, Was Able to Work in Two Weeks.

"I was sick last winter for five months with stomach and bowel trouble. Could not turn myself in bed without help. I was under the care of four doctors, and they gave me up. Then Mr. Mills, the druggist, persuaded my husband to try a bottle of Milks Emulsion. I had only taken it two days until I was sitting up in bed, and in two weeks I was doing my own work. When I began taking it, I weighed only 70 pounds; now I weigh 190 pounds."—Mrs. Mary Hendricks, 900 Litchfield Road, Owensboro, Ky.

Thousands of people who have suffered for years from stomach and bowel troubles, have found relief, almost from the first dose of Milks Emulsion. And it is real, lasting benefit.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. JOHN BARLEYCORN VICTORIOUS OVER ENGLISH ENEMIES

London, April 5.--Neither will William (pussyfoot) Johnson the American anti-saloon league trail blazer for England, nor the high cost of living has been able to sidetrack the onward march of John Barleycorn throughout the British Isles.

The United Kingdom last year drank sixty per cent more absolute alcohol than in 1918, when war restrictions were on more tightly and spent more than twice as much for it than in 1914, according to George B. Wilson, secretary of the United Kingdom Alliance today.

The alliance corresponds to the American Anti-Saloon league.

Wilson estimated that in the year ended on April 1 the nation's "booze bill" will be \$1,988,500,000 as compared to \$797,825,000 in 1914. Some 74 per cent was consumed as beer.

Wilson pointed out that the consumption of milk during 1918 in Britain was under 12 gallons per person yearly, or the half of the normal consumption of New York City. The average adult expenditure on liquor is \$42 annually.

You Can Borrow Money On Your Home But Not on Rent You Pay

MANY people never think about it in this light. Perhaps you're one who has never realized the possibilities of a home of your own as GOOD COLLATERAL IN TIMES OF STRESS.

Other things no doubt are tugging at your purse strings but there is no advice that beats building yourself a home first.

Get yourself a location while real estate values are normal. Look around. You'll find vacant lots in good places at a reasonable figure. THEN GET ONE.

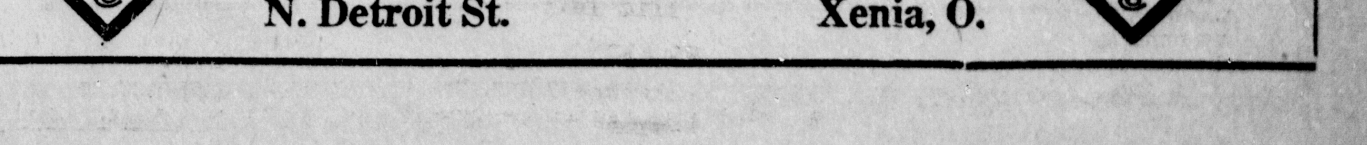

Counsel with a reputable real estate dealer, a con- tractor, a banker. ASK QUESTIONS. Oftimes problems which loom up big to the uninitiated iron out easily and smoothly under expert treatment. You many find it twice as easy to build as you now think.

You can't go wrong. Labor and materials are cer- tain to remain at their present high level for years. You'll not be able "To Build for Less" perhaps in a lifetime.

And always remember this; regardless at what your home costs you can borrow in the same proportion of its value as you could before the war.

A HOME OF YOUR OWN IS MORE THAN A HOME. IT'S YOUR SAVINGS BANK WHEN THINGS TEMPORARILY GO WRONG. BUILD NOW.

EAST END NEWS

Mrs. Mary E. Harris, correspondent, East End Market street. News can be left at the following named places, Holmes Grocery, Leach & Clark and East End Drug Store.

The Vesper services at St. John's A. M. E. church Sunday afternoon were of a very high order as is characteristic of all special services under the auspices of the choir of this church. The following program was rendered:

Voluntary—Miss Helen W. Ferguson.

GREATEST OF ALL BLOOD PURIFIERS

In the Spring everybody needs Evans' Triple Phosphates to restore energy, appetite and ambition.

Nervous rundown men and women whose strength has been sapped by confinement to home, store or office during the winter months or by an attack of influenza, Grippe or other wasting sickness, and who feel the need of more strength, better assimilation and a quick and effective toning up of the nerves, will find nothing to compare with Evans' Triple Phosphates. It's really wonderful what this famous tonic will do for frail, rundown people who have no appetite or ambition.

If you want to see the glow of healthy blood in your cheeks, have bright eyes and be full of energy and ambition, let your fight for better health begin now.

All good pharmacists dispense Evans' Triple Phosphates in the original bottle on the money back if dissatisfied plan. You are sure to get it at Sohn's Drug Store.

Says Fat People Now Rejoice

Testimony Proves Arbolone Safe, Sure Reducer.

Enjoys Wide Sale Amongst Educated Wealthy Set.

The physician who originated the Anti-Fat treatment known to physicians and druggists as "five-grain tablets Arbolone" is being praised and thanked by scores of women in the class known as "society devotees."

A literary woman in Los Angeles, being so highly elated over her success, in reducing, has written a clever little poem, which recites the facts and expresses deep gratitude as well. To safely and surely reduce from 20 to 60 pounds is easily accomplished when tablets Arbolone are used regularly. They are not drastic or dangerous, used as directed, but simply and surely dissolve the fatty elements and eliminate from the system. Also they remove the craving for such foods as are not desirable for fat folks to use. Herein, Arbolone is superior to all other anti-fat medicines, as it automatically overcomes the abnormal, perverted appetite for starchy foods, etc. Sold by all druggists in sealed tubes with full directions.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pains in the back, headache, loss of ambition, nervousness are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Gazette or Republican.

Cadomene the "Miracle Medicine"

Many People Have Written of the Seeming "Miracles" Performed by Cadomene Tablets.

They Are Only Recommended For Worn-Out, Impoverished, Nervous People, But—

People have testified that they have been cured of rheumatism, headaches, stomach disorders, pains of neuralgia, etc., through the use of this great medicine- Cadomene Tablets. It only means that the Cadomene has helped to build up the strength of all organs and then nature has a chance to bring the cure. Therefore, if you are tired, sluggish, and your feet and hands are cold and clammy, and nervousness overwhelms you by sleeplessness, irritable temper, and your heart flutters while dizziness and trembling seize you at times, you may ward off serious consequences and become full of vigor, red blood and health for every vital organ of your body. Mr. J. W. Biggs of R. R. No. 3, Fort Worth, Texas, writes: "I am using Cadomene Tablets and find them to be good in every way for an old man of 50." F. W. Barbeau, 1327 Inca Street, Denver, Colo., writes: "I have taken one package of Cadomene and it has got me on my feet and I feel fine." Cadomene builds up nerves and bodily vigor. All druggists.—Adv.

Processional—Choir.
Prayer—Rev. P. A. Nichols.
"Thou Lord, Wilt Arise"—Chorus—Choir.
Solo—Mr. N. Watson.
Trio—Mrs. Clara Corbin, Messrs. Rickman and Lindsay.
Responsive reading.
Vocal Solo—Mrs. Orphelia C. Rogers.
Vocal Solo—Miss Helen W. Ferguson.
"Christ is Risen"—Chorus—Choir.

Recessional—Choir.
Except for the disappointment occasioned by the unexplained absence of the speaker, the program was carried out with precision. The chorus singing was exceptionally good and well balanced, all voices blending in perfect harmony. The soloists held the audience spellbound with their range and melody.

The services Easter at the Third Baptist church were brim full of interest, as well as helpful and inspiring. At the morning service the pastor delivered a very helpful Easter sermon, using as a theme, "The Resurrection A Guarantee of Life in Another World."

At the Sunday school hour, a very helpful program was rendered by primary and juniors, after which Easter eggs were given to the school, the adult classes receiving Easter card. At the evening service hour, the Junior Choir rendered the Cantata, by J. S. Witt, "From Gethsemane to Calvary," which was indeed inspiring from start to finish, the young people can feel complimented, for each of them had learned with almost perfection their different parts. Miss Florence P. Howe was the director.

Mrs. Elizabeth Simms gave a reading between the two parts (intermission), "The Burial of Moses," to the delight of all, but it remained for Master Robert Shoecraft in "Easter Greetings" to receive accolades from every corner of the building.

Mr. and Mrs. John Steward with Mrs. Laura Lovett spent Sabbath the guests of Mr. and Mrs. James H. Harris.

Rev. John Green will preach at the Middle Run Baptist church Wednesday evening at the prayer service hour.

The pastor of Middle run church preached to his congregation Sabbath morning the doctrinal sermon of the Resurrection and the young folks in the evening put the climax on and went far beyond the expectation in the rendering of their well prepared program of Easter greetings.

Mrs. J. H. Massie of Louisville, Ky., came Saturday to visit her parents.

Mr. and Mrs. Hart of Market street. The night school at Lincoln Building will resume work Tuesday evening. It is yet open to any who want to take advantage.

Mrs. J. C. Hornedy and children of Yellow Springs visited Mrs. Lucy Payne of East Market St.

Master Cyrus Taylor visited relatives in London, O., during the vacation.

Leroy Samuels of near Dayton was the guest of Miss Beula Underwood over Sabbath.

A fitting day at Zion Baptist church was Easter Sabbath, the ordinance of Baptism was administered to 20 persons in the early morning. In the afternoon the children's Easter Program carried with it the idea of the season. One thousand persons witnessed the rendition of the cantata "Our Living Lord," last evening. Each participant was at his best. Especial mention is given Mr. Leroy Harris as chorister. Mr. James Peters for his most elaborate decorations, portraying the idea of the resurrection also Mr. Will Ellis for the beautiful hand painted picture, "The Empty Tomb." Mr. and Mrs. J. C. Johnson for blooming plans. The contribution amounted to \$109.07.

PREVENT COUGHS, COLD, GRIP OR INFLUENZA DEVELOPING INTO PNEUMONIA OR BRONCHITIS

Kill the Germs Before They Get Imbedded Into the Delicate Membrane of the Lungs or Bronchial Tubes.

For 50 cents you can get 3 ounces of Glando Pine, mix it with enough good syrup or strained honey to make a pint and you will have the best cough medicine you ever used. It can't be beat for coughs, colds, hoarseness throat irritations or croup. Glando Pine relieves the spasmodic coughing in whooping cough. Children love to take it. To prevent a cold from developing into pneumonia or bronchitis, hold a teaspoonful of Glando Pine well back in the mouth or throat and take a few deep breaths before swallowing. You can feel the air cells opening up and you will breathe deep and easy.

Mrs. W. M. Fellers, of Lima, Ohio, says: "I took cold which developed into a severe cough. It hung on for several months. I coughed terribly especially at night. I lived in a flat and my neighbors, believing me to have tuberculosis, asked the owner of the flat to have me move out, which he did. I used different remedies, but found no relief until I used Glando Pine. The first dose seemed to help me. I began gaining flesh, and by the time I had used two bottles my cough was gone. Over 2 years have passed and my cough has not returned. I believe Glando Pine saved my life."

Glando Pine is manufactured by the Gland-Aid Co., Ft. Wayne, Ind.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of Influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

The truth that life is not measured by days and years, but by the light or shadow it leaves behind when lifted to a higher plane of existence, came with glad realization to the friends of Marian Snider, as they stood by the side of the young girl on whose face rested the peace of eternal rest.

Marian's earthly life was embraced in the short limits of twenty-four years. But, notwithstanding her great affliction, they were happy years; years of blessing to all who came under the influence of her gentle, loving spirit. From babyhood her eyes were closed to the beauty of the world around her; to the flowers she so dearly loved, the birds whose carols were unceasing joy, the faces of those so dear to her, but she possessed, in rare degree, the "inner vision" which is granted but to few, to those, only, who see God as perfect love. A love which Marian reflected upon all around her, as the fragrance of rose or lily sweetens the summer air. Not only was this love manifested in the little home circle, especially to the mother whose life was constant, untiring devotion to her afflicted child, but to the whole world, for, with childlike faith, she believed the world to be a paradise of love, and never did unkind judgment or bitter criticism fall from her lips, in her own bright way she would

A MODERN STORY OF HOME AND BUSINESS

GERRY MAKES UP HER MIND
Chapter 96
The next day was Friday. Madame expected me back Monday. I was utterly miserable. I could set myself at nothing, but roamed around the tiny flat, talking out loud, going over everything I could think of, for and against the giving up of my position.

Finally I could stand the nervous strain no longer, and put on my hat and coat. I would go out and take a long walk. Perhaps I could think better in the open, more easily make up my mind.

I walked until I was tired. Then without having come to any conclusion, I went down to the store. I had promised Robert I would come down and help him with the window. Some new goods had come in, and he was going to redress the windows for Saturday.

"I had begun to think you had thrown me down," he said, smiling at me.

"No, I took a long walk this afternoon, and didn't allow quite time enough to get here promptly."

We had scarcely commenced to work when the telephone rang.

"Answer it, Gerry. Will you?" Robert was on a step ladder getting out some goods we wanted.

"Has Mr. Meredith gone yet?" It was a woman's voice—Marion Hovey's, I felt sure.

"Some one to speak to you, Robert."

"Ask them to hold the phone a moment. I don't want to climb up here again."

I did so, and the voice sweetly acquiesced. Then Robert went to the phone.

"Hello!—oh, Marion!—No, not tonight—too bad—can't be helped. No—Mrs. Meredith is here. We are going to the motion picture show when we get through here and have our dinner. She is helping me—yes, trim the windows. Sorry—no—I'm afraid not—if I can—won't promise—good night."

"My, I thought she never would stop talking," he exclaimed in a tone that made me feel like patting him on the back.

"What did she want?" I asked as carefully as I could.

"Wanted me to come up to dinner. Then asked me to come up tomorrow night. Must think I haven't anything to do." This time I could have shouted for joy.

I said no more about Marion, but put my mind upon the work, and in less than an hour we had finished. Then we had some dinner at a very good place near the store, and after-ward went to the movies. We were just in time for the 9 o'clock show.

It was late when we reached home, almost 12.

"Want some supper, Robert?"

"Do I?"

"Really are you hungry?"

"Yes, and we won't have these cozy suppers much longer," a shadow crossed his face.

"Why yes we will—that is if you can earn enough to buy them."

I had not knowingly decided I

On January 12th, 1900, General Wood issued an order to define the relations between the military and civil jurisdiction, in which the military, which had been practically supreme until that time, were forbidden to interfere in the conduct of civil affairs except in matters of sanitation."

BEAUTY CHATS

CORRESPONDENCE

J. P.—If your hair is naturally an ashy color and is turning grey, you can restore its original shade by using Egyptian henna. Make a paste of henna powder and hot water, and after you have shampooed and dried your hair cover it with this paste. Let it stay on from 15 minutes to two hours—the longer it stays on, the richer the shade you will obtain. Rinse off the paste with warm water.

Gladiola—If you have your hair cut short as you suggest it will bring it in healthier and thicker. As you are very young, you can wear your hair bobbed for at least one more year. It is all right for a girl your age to use cold cream and powder. However I do not think it is necessary, unless you wish to use the cream as a cleanser.

Mrs. McM.—I am not permitted to give the names of any ready made preparations in this column. Cold creams containing almond or olive oil are so easily made that you will have no trouble making them at home for yourself. If you wish my formula I will very gladly send it to you.

Blue Eyes—If you are noticeably low-legged, you can wear braces to overcome this defect, even though you are 20 years old. Ask your physician to recommend a good type of

brace.

Mary Ellen J.—I imagine that the yellow marks on the face are due to some kidney or liver trouble. Your physician can recommend the proper diet and tonics to overcome this.

Dallas B.—I would advise you to use a flesh-building cold cream as a facial massage to overcome wrinkles.

A very worried friend—You might try massaging the bust every day with warm cocoa butter. This is well known as a tissue builder. If you do not see any results in a few months send me a letter, with a self-addressed stamped envelope, and I will mail you the formula for an excellent bust developer.

Sixteen—You cannot expect to have a fine grained skin if you insist on clogging it with a mixture of cold cream and powder. Give your skin a daily thorough washing with mild soap and fairly hot water, and rinse in hot and cold water. Occasionally use a cleansing cream before you wash. Use a very little bit of powder and then only when necessary.

Patricia—Try using the cosmetic gloves to keep the hands soft and white. Directions for this were given recently in this space.

Heart and Home Problems

Dear Mrs. Thompson: For several months I have been going with a man who came the nearest to being ideal of any one I have ever met. I do not mean he was perfect. He had faults, but I loved him anyway because in big ways he was so good, and kind. I saw him two and three times every week and I learned to depend upon him a great deal.

Now he has been called out of town to work. I miss him so much that sometimes I think I will go crazy from loneliness. He liked me, too, but he could not have cared as much as I did or he would have said something before he went away.

Don't you think that girls as well as men ought to have the privilege of saying when they are in love and even proposing? BEATRICE B.

Considering the natures of both man and woman, it seems to me that it is just as well to leave the act of proposing to the man. If he loved the girl enough to marry her he will say so, and if he does not love her he will care all the less if he learns she is seeking him.

Perhaps time will teach the man how much you meant to him and he will come back. Do not wait for this, however. Try to be happy with what is left in life for you to enjoy. It is always a mistake to look backward and let the beauties of the present pass unnoticed.

Dear Mrs. Thompson: I am a married man without children and recently we have had as a visitor a young sister of my wife, a young girl sixteen years old. While here she received quite a good deal of attention from the boys about her own age. This young lady allowed these boys to stay until eleven and after eleven o'clock at night.

Do you think a girl of sixteen is old enough to have company at night? I think it all right for children to be allowed to see each other, but I think it is perfectly disgusting

to see girls that age having engagements with young men at night. I am well aware of the fact that girls of that age are receiving young men in their homes with the permission of their parents, but this does not in any way seem the proper thing. Please give me your opinion.

YOURS VERY TRULY, I agree with you that a girl of sixteen is too young to receive callers at night or to go places with young men. If boys in the neighborhood drop in and stay until eight-thirty or nine o'clock that is a different matter.

A sixteen-year-old girl needs her evenings for study and her nights for sleep. If she stays up late at night she matures faster and by the time she is old enough to enjoy young men she is faded and old for her age.

Dear Mrs. Thompson: I am a young man of twenty-eight. I was married and lost my wife last year. I miss her, for I loved her dearly, and I can't rest because of thinking of her. A man never knows how much a woman means until after she is gone.

All I do is wander from place to place. I lost my wife and two children and I have two children left. It seems as if no girl wants a man with children.

A WANDERING HEART. Many men with children marry again. Take more interest in your work so that you will make a good living and can offer a girl some chance for happiness more than caring for two children. It is not a pleasant prospect to care for some one else's children unless there is enough money to do so comfortably. If you have failed to find a second wife it is probably because you have not courted her right. Take her places and do not expect her to be happy merely with calls from you. It is foolish to give up hope, because you can find a girl who will be glad to marry you.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says Nothing Like Plain Argo-Phosphate to Put on Firm, Solid, Stay There Flesh and Muscle and Increase Strength, Vim, Vigor and Nerve Force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate; it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the usually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual health producing qualities it should not be used by any one unless they reside to put on flesh and increase in weight. Dispensed by Sohn's Drug Store.

SAMUEL KATZ DIES MONDAY AFTERNOON

Samuel Katz, aged 42, a brother of Milton Katz, of this city, and manager of the clothing store of Leo Katz and Company, Washington C. H., died suddenly at his home in that city at 12:05 Monday afternoon.

He had not been in good health for several months, and his death is thought to be due to troubles resulting from a high blood pressure. Mr. Katz was born in Wilmington. He is survived by his widow, his mother, Mrs. Dinah Katz, of Cincinnati, and the following brothers and sisters: Leo, of Columbus; Milton, of this city; Sidney, of Chillicothe; Mrs. Wertheimer, Mrs. L. P. Bloom, Mrs. Elmer Walenstein, of Cincinnati, and Mrs. M. Cohen, of Buffalo.

Funeral services will be held in Cincinnati Wednesday.

Mr. and Mrs. Milton Katz went to Washington directly upon receiving word of Mr. Katz' death. They returned home Monday night to prepare to attend the funeral.

London, April 6.—It was reported in authoritative quarters that Washington has protested against the French occupation of towns in the German neutral zone. The protest was said to have been made in "clear terms."

LADIES! DARKEN YOUR GRAY HAIR

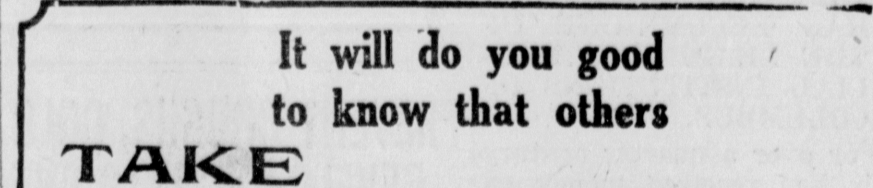

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

"BRINGING UP FATHER"

by George McManus

THE CHEERFUL CHERUB

Up and down my life goes on;
From depths to heights it rises —
And though it jolts me now and then
It gives me nice surprises.

check unkind assertions with "Let us talk of something pleasant," or "He is God's child."

Peculiarly strong was Marian's love for her church, and as the glorious promises of the ninety-first Psalm were read in the last services of love, there were those present who recalled the many many times that they had heard the ups now silent, repeat the same comforting assurances of God's protecting love and care, repeat them with a gladness, an assurance, that comes only from actual faith and realization of the infinite Father as an "abiding place."

Truly, the light left by Marian Snider's earthly life, is a rainbow bridge connecting two worlds, one on which rests the shadow of separation, the other, one of eternal joy and glad reunion, and where the eyes so long closed to the beauty of earth, are forever open to the beauty of the "land that lieth not very far off."

One Who Knew and Loved Her.

MORTORAIDS

Don't let your engine race when you have stopped in driving through traffic. Drive with spark advanced as far as possible without causing the engine to knock. Inspect the oil level in the engine the amount of water in the radiator and the pressure in the tires, each time you drive out of the garage.

Use non skid chains when the street is slippery but not otherwise. Take them off as soon as the going is good. Don't adjust chains so loose that they can fall off, nor so tight that they won't creep. Keep an accurate record of the mileage and buy the make giving the lowest cost per mile.

Don't engage the clutch sharply, apply the brake harshly or round corners at a high rate of speed. Have small bits in the tread or tires, that reach into the fabric, repaired immediately.

DISCOVERIES.

If last year's black straw hats are given a coat of black enamel, they will have the gloss that the present day fashion demands. Old black ribbons may also be treated in the same way. One coat applied with a flat brush gives it the appearance of the shiny ribbon so much used. Two coats give a patent leather effect.

The can of enamel should be put in a warm place two or three hours before using, but must be kept away from an open blaze. Black bone buttons may be given a satin finish in the same manner.

To remove paint from windows and mirrors—Use a safety razor blade. Paint and varnish can be cut off windows in a minute and without leaving a scratch.

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

GERRY MAKES UP HER MIND

Chapter 96

The next day was Friday. Madame expected me back Monday. I was utterly miserable. I could set myself at nothing, but roamed around the tiny flat, talking out loud, going over everything I could think of, for and against the giving up of my position.

Finally I could stand the nervous strain no longer, and put on my hat and coat. I would go out and take a long walk. Perhaps I could think better in the open, more easily make up my mind.

I walked until I was tired. Then without having come to any conclusion, I went down to the store. I had promised Robert I would come down and help him with the window. Some new goods had come in, and he was going to redress the windows for Saturday.

"I had begun to think you had thrown me down," he said, smiling at me.

"No, I took a long walk this afternoon, and didn't allow quite time enough to get here promptly."

We had scarcely commenced to work when the telephone rang.

"Answer it, Gerry, will you?"

Robert was on a step ladder getting out some goods we wanted.

"Has Mr. Meredith gone yet?"

It was a woman's voice—Marion Hovey's, I felt sure.

"Some one to speak to you, Robert."

"Ask them to hold the phone a moment. I don't want to climb up

here again."

I did so, and the voice sweetly acquiesced. Then Robert went to the phone.

"Hello!—oh, Marion!—No, not tonight—too bad—can't be helped. No—Mrs. Meredith is here. We are going to the motion picture show when we get through here and have our dinner. She is helping me—yes, trim the windows. Sorry—no—I'm afraid not—if I can—won't promise—good night."

"My, I thought she never would stop talking," he exclaimed in a tone that made me feel like patting him on the back.

"What did she want?" I asked as carelessly as I could.

"Wanted me to come up to dinner. Then asked me to come up tomorrow night. Must think I haven't anything to do." This time I could have shouted for joy.

I said no more about Marion, but put my mind upon the work, and in less than an hour we had finished. Then we had some dinner at a very good place near the store, and afterward went to the movies. We were just in time for the 9 o'clock show.

It was late when we reached home, almost 12.

"Want some supper, Robert?"

"Do I."

"Really are you hungry?"

"Yes, and we won't have these cozy suppers much longer," a shadow crossed his face.

"Why yes we will—that is if you can earn enough to buy them."

I had not knowingly decided I

would not go back. The shadow on his face, the way he had talked to Marion, the thought that she still was a menace to me, calling him at the store—may all have had their effect on me. But Robert was no more surprised than I. He turned pale, while I was as if every bit of blood in my body had rushed to my face.

"What do you mean, Gerry?"

"Just what I said, dear. I shall not go back to Madame Leets on Monday. That is unless you send me."

"I send you—"

"Yes. Unless you are afraid to try running things alone." It was hard even to imply he needed my money, that we ought live.

"And you will try to get along on what I make?"

"Yes—"

"Oh, Gerry! I—"

"Robert, let's be real sensible about it. I am going to find a little flat. I am going to keep house for you. You are going to take care of me. I believe you have a chance for advancement with Burch, and I also believe you will know how to make the most of your opportunity."

"And I am to have a real home a last? Not even Mary's, but one of our very own, yours and mine, Gerry!"

For the second time since I had married him, I saw Robert wipe the tears from his eyes. But this time he smiled so happily through them that my own eyes misted. He had earned more than I realized.

To be Continued

The following is quoted from Ridpath's History of the United States, vol. 14, p. 5738, published in 1906:

"General John R. Brooke was placed in command of Cuba as Governor General. On December 20th, 1899, he was succeeded by General Leonard Wood. On January 12th, 1900, General Wood issued an order to define the relations between the military and civil jurisdiction, in which the military, which had been practically supreme until that time, were forbidden to interfere in the conduct of civil affairs except in matters of sanitation."
